Vision

To be a high quality educational institution in administrative sciences and admitted by national and international communities

Missions

- To improve the quality and quantity in implementing the Three University Basic Principles: teaching and learning, research and community service
- 2. To create the ethos of administrative sciences in the community and to strengthen the position of alumni in the job market
- To increase effectiveness and efficiency in faculty administration

FOREWORD

This book of Academic Regulations for 2013/2014 Academic Year is published under the Dean Decree number 218/UN10.3/SK/2013 dated July 10, 2013 in order to foster the dissemination of information related to teaching and learning activities in Faculty of Administrative Science, University of Brawijaya.

The content of this book reflects the implementation of the Act no. 20 of 2003 concerning the National Education System, Government Regulation number 60 of 1999 concerning Higher Education, Ministry of National Education Decree number 080/0/2002 concerning the University of Brawijaya's Statutes, and Rector of University of Brawijaya Decree number 310/K/2012 concerning Academic Regulations of University of Brawijaya for 2013/2014 academic year. This book is hoped to provide a better picture to officials, students, lecturers, and stakeholders concerning the educational system applied at Faculty of Adminstrative Science, University of Brawijaya.

This book has been going on revisions from year to year as the educational management continues to develop for better systematic perfection. Therefore, the revised version is hoped to satisfy the demands of the academic society as the user of this book.

I hope that this book of Academic Regulations will be a sole guide in the teaching and learning activities at Faculty of Administrative Science, University of Brawijaya.

Malang, July 2013
Faculty of Administrative Science
University of Brawijaya
Dean,

SIGNED

Prof. Dr. Bambang Supriyono, M.S. NIP. 19610905 198601 1 002

On

ACADEMIC REGULATIONS FACULTY OF ADMINISTRATIVE SCIENCE, UNIVERSITY OF BRAWIJAYA 2014/2015 ACADEMIC YEAR

DEAN OF FACULTY OF ADMINISTRATIVE SCIENCE, UNIVERSITY OF BRAWIJAYA

Considering

- a. that improving the implementation quality of Three
 Principles of Higher Education requires academic
 regulations which base all of their practical application;
- that regarding the first point earlier stated above, Academic Regulations book needs to be published in order to direct the implementation of Three Principles of Higher Education at Faculty of Administrative Science, University of brawijaya.

Recalling

- 1. Act No. 20 of 2003
- 2. Act No. 12 of 2012
- 3. Act No. 66 of 2010
- 4. Presidential Decree No. 72/M of 2010
- 5. Minister of National Education Decree No. 234/U/2000
- 6. Minister of National Education Decree No. 080/0/2002
- 7. University of brawijaya's Rector Decree No.
 - 074/SK/2006
- 8. University of brawijaya's Rector Decree No. 281/SK/2013

DECIDING

Determining

First : Academic Regulations of Faculty of Administrative Science,

University of brawijaya, in 2013/2014 academic year as a sole basis for all academic-related units in Faculty of

Administrative Science, University of brawijaya;

Second : The 2014/2015 version of Academic Regulations apply to

students enrolled since 2014/2015 academic year, while those from earlier batches are to follow the previous edition

of Academic Regulations.

Third : This decree is in effect from the date of enactment and will

be evaluated when a misimplementation is found.

Malang, March 2014

Dean,

Signed and Sealed

ACADEMIC CALENDAR FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA 2013/2014 ACADEMIC YEAR

CHAPTER I INTRODUCTION

A. HISTORY OF FACULTY OF ADMINISTRATIVE SCIENCE

The history of Faculty of Administrative Science cannot be separated from the history of University of Brawijaya itself as it is a part of the university. University of Brawijaya, situated in the city of Malang, East Java Province, was first established on January 5, 1963, by Minister of Higher Education and Knowledge Decree number 1 of 1963 and later confirmed by Presidential Decree number 196 of 1963 issued on September 23, 1963.

It all began with the establishment of Faculty of Business Administration on September 15, 1960, with Drs. Soejekti Djajadiatma as its dean and Drs. Suparni Pamudji as the secretary of dean. At those days, both people also worked as lecturers at Civil Service Academy, Malang. On July 11, 1961, the President of the Republic of Indonesia granted the name University of Brawijaya which officially opened 4 faculties:

- Faculty of Law
- Faculty of Economics
- Faculty of Business Administration
- Faculty of Agriculture

In 1961, Drs. Ruspana, a lecturer at Civil Service Academy, was appointed as dean in order to replace Drs. Soejekti who was assigned to study in US.

On September 30, 1962, in order to comply with Act no. 22 of 1961 on Higher Education, the name Faculty of Business Administration was changed into Faculty of Public and Business Administrations. This faculty managed two departments, namely, Public Administration and Trade Administration Departments. An extension of the faculty was opened in Kediri, East Java Province, under the Minister of Higher Education and Knowledge Decree number 97 of 1963 since August 15, 1963. In later development, the Kediri branch was closed and moved back to the head office in Malang.

Despite a good progress on the university's development, the latest country's situation did not support for any academic performance due to the September 30th Rebellion by the Indonesian Communist Party that all activities were cancelled, particularly on April 2, 1966. An emergency action was, then, taken by the 083 Resort Military Commander with the issuance of a Decree number 021/IV/66 which regulated that the officials of University of Brawijaya must take the form of a presidium and set caretakers of its faculties' dean. This decree was strengthened by the issuance of Deputy Minister of Higher Education and Knowledge Decree number 4538 of 1966. Soon later, the presidium worked

to re-open the university on April 12, 1966. At that time, Drs. David Jats, M.A. was appointed as a caretaker of Dean of Faculty of Public and Business Administrations until September 16, 1966.

After that date, Officials of Faculty of Public and Business Administrations, University of Brawijaya, were as follows:

- Dean: Drs. Soejekti Djajadiatma, M.S.P.A
- Vice Dean I: Drs. Zamhir Islamy
- Vice Dean II: Drs. Ganda Sufrihat
- Vice Dean III: Drs. Niam Sovie

In 1971, concerning the latest situation and demands, the Faculty Senate decided to reformed the officials which resulted in the following structure:

- Dean: Drs. Soejekti Djajadiatma, M.S.P.A
- Vice Dean I: Drs. Taher Alhabsji
- Vice Dean II: Drs. Zainal Arifin Achmady
- Vice Dean III: Drs. Timotius Hartono

In 1976, two new concentrations were offered, namely, Local Government Administration under Public Administration Department and Accounting under Trade Administration Department. However, due to a jurisdictial obstacle, the Accounting concentration was forced to close. In the period of 1978-1982, the following officials led the faculty:

- Dean: Drs. Taher Alhabsji
- Vice Dean I: Drs. Moch. Ichsan
- Vice Dean II: Drs. Abdul Rachman Soendjoto
- Vice Dean III: Drs. Irfan Islamy
- Vice Dean IV: Drs. Ismani H.P.

In 1979, the Diploma III Program in Secretaryship was opened to provide an opportunity to fine-tune the skills and abilities to meet the demands of an office. The Head of the Program was Drs. Niam Sovie. In later development, the following people took turns as the Head of the Program: Drs. Saiful Bahri, Drs. AFX. Marsudi, Drs. Ahmad Sapari, Dra. Fransisca Yaningwati, M.Si (1999), and Drs. Rustam Hidayat (2003). The latter officer was appointed as the Secretary of the Business Administration in 2007, thus Dra. Zahroh, M.Si was appointed as the Head of the Program to replace him.

In the period of 1982-1985, the following officials were in charge of the faculty:

- Dean: Drs. Taher Alhabsji
- Vice Dean I: Drs. Chalim Chalil Jusuf
- Vice Dean II: Drs. Abdul Rachman Soendjoto

• Vice Dean III: Drs. Umar Nimran, M.A.

In accordance with Indonesia's Govenment Regulation number 27 of 1982 concerning Faculty Management in State Universities/Institutes as well as Presidential Decree number 59 of 1982 concerning the Organizational Structure of University of Brawijaya, the name Faculty of Public and Business Administrations was changed into Faculty of Administrative Science. The new name was coined during the Administration Symposium held by the faculty in 1974 and suggested by the Social Science Consortium on February 1982 held in Jakarta for the sake of better describing the body of knowledge being the focus of study and strengthening its development.

In 1995, Master's degree program in Administrative Science was opened and managed under Graduate Program, University of Brawijaya, and Prof. Dr. Moch. Ichsan was assigned as the Head of the Program. Later, the society demanded a more specified Master's degree program which divided the program into Master's degree in Public Administration and Master's degree in Trade Administration. The later program was officially offered not long after the idea of expansion first appeared; in 1995, it was approved by the General Director of Higher Education at Ministry of Education and Culture, and Prof. Dr. Bambang Swasto Sunuharyo, M.E was appointed as the Head of the Master's degree programs in the period of 1996-2000. The following is the Heads of the program in different periods.

- 2000-2005: Prof. Dr. Moch. Ichsan
- 2005-2009: Prof. Drs. Achmad Fauzi Dh. (Trade Administration Program)
- 2009-now: Dr. Kertahadi, M.Com. (Trade Administration Program)

A few months later, a permission from the General Director of Higher Education, Ministry of Education and Culture, to hold Master's degree program in Public Administration was issued. The following is the Heads of Master's degree program in Public Administration in different periods.

- 1997-2000: Drs. Solichin Abdul Wahab, M.A., Ph.D
- 2000-2005: Prof. Drs. Ismani H.P., M.A.
- 2005-2006: Prof. Dr. R. Riyadi Soeprapto, MS.
- 2006-now: Drs. Andi Fefta Wijaya, MDA., Ph.D

From 1996/1997 academic year, the non-regular *Sarjana*'s degree program was opened to accommodate professionals to earn a *Sarjana*'s degree with the same curriculum and syllabi as the regular program. The Head of the program was Drs. Bambang Supriyono, M.Si from 1997 to 2000. Then in 2001-2002 the Head of the program was Drs. Edy Yulianto, M.P. However, the program was

forced to close with the issuance of Minister of National Education Decree number 28/DIKTI/Kep/2002, thus the program no longer officially existed since 2003.

In order to satisfy the demands for tourism professionals, in 1997 the Diploma III Program in Tourism was offered. The first Head of the program was Drs. I Nengah Sujana, M.Si, which was then replaced by Drs. Topowiyono, M.Si in 2003.

Since 2010/2011 academic year, under the regulation of the university, all diploma programs were moved and managed under the Vocational Program of University of Brawijaya. Therefore, from that on the Diploma Programs in Secretaryship and Tourism were officially closed.

In 1998, a Master's degree program in Administrative Science was opened in order to produce scholars who would apply administrative science by means of interdisciplinary views, that is, public as well as trade administrations. The program continues to be the non-regular Master's degree program.

In 2001/2002 academic year, Doctoral degree program in Administrative Science was officially offered. In its early development, the program was managed under School of Graduate Studies. However, according to Rector Decree number 030/SK/2006 dated February 26, 2006, the management of the program was sent back to Faculty of Administrative Science.

Since its opening, the program had two majors: Public Administration and Business Administration. The Head of the program in 2001-2005 was Prof. Dr. Irfan Islamy, MPA, while in 2005-now was Prof. Dr. Soesilo Zauhar, MS. In 2011/2012 academic year, a Doctoral degree program in Business Administration was established with Prof. Dr. Suhadak, M.Ec as the Head of the program. In other words, this program would stand as a separate Program. In the same academic year, the Doctoral degree program opened English-based class to accommodate overseas students, that is, from Thailand and Libya.

In 2004, a Tailor-Made Master's degree program (13-month program) was opened under the cooperation between Faculty of Administrative Science and Ministry of National Development Planning. This program is still on until this day and puts emphasis on development planning major as a part of the Master's degree program in Public Administration.

Since the Rector Decree that put all Master's and Doctoral degree programs back under their respective faculty, both programs have established important relationships with various government and non-government institutions, both domestic and overseas.

In later development, the Master's degree program in Public Administration managed to establish Tailor-Made, Double Degree, and Community Empowerment programs working together with Ministry of National Development Planning, Ministry of Finance, Ministry of Interior, and Ministry of National Education. The Double Degree program was offered by building a cooperation with several overseas universities, such as Takushoku University (Tokyo), Tohoku University (Tokyo), Keio University (Tokyo), Ritsumeikan University (Kyoto), Ritsumeikan Asia Pacific University-APU (Kyoto), GRIPS University (Tokyo), Burapka University (Bangkok), and Prince Songkla University (Hat Yai, Thailand). This program enables student to earn two degrees at once from the faculty and from one of the overseas universities. Since 2011/2012 academic year, the Doctoral degree program also held cooperations with overseas universities, one of which was Burapka University. Up to now, both Master's and Doctoral degree programs have received students from various countries.

In 2010/2011, within Business Administration Department, two Programs were opened, namely, Tax Science and International Business. Also, within Public Administration Department, Development Planning and Government Administration Programs were opened. In 2011/2012, a new program was established in Business Administration Department, that is, Hospitality and Tourism, while Public Administration Department also established a new program, that is, Library Science. Moreover, in the Master's degree program, two new programs were established, that is, Master of Art in Higher Education and Master's degree in Entrepreneurial Government.

The following is the structure of the Faculty of Administrative Science in later periods.

Period		Officials
1985-1988	and	Dean: Drs. Chalim Chalil Jusuf
1988-1991		 Vice Dean I: Drs. Achmad Fauzi Dh., M.A.
		Vice Dean II: Drs. Aspan Munadi
		Vice Dean III: Drs. M. Djudi Mukzam
1992-1995	and	Dean: Prof. Dr. Moch. Ichsan
1995-1998		 Vice Dean I: Drs. Lukman Syamsuddin, M.A.
		 Vice Dean II: Drs. Heru Ribawanto, M.S.
		 Vice Dean III: Drs. Tjahjanulin Domai, M.S.
1998-2001		Dean: Drs. Lukman Syamsuddin, M.A.
		 Vice Dean I: Drs. Kertahadi, M.Com.
		• Vice Dean II: Drs. Soewondo, M.S.

	Vice Dean III: Dr. H.R. Rijadi Soeprapto, M.S.
2001-2005	Dean: Drs. Kertahadi, M.Com.
	 Vice Dean I: Dr. Sumartono, M.S.
	 Vice Dean II: Drs. Choirul Saleh, M.Si.
	 Vice Dean III: Drs. Bambang Santoso Haryono, M.S.
2005-2007	Dean: Dr. Suhadak, M.Ec.
	 Vice Dean I: Dr. Sumartono, M.S.
	 Vice Dean II: Drs. Choirul Saleh, M.Si.
	 Vice Dean III: Drs. Bambang Santoso Haryono, M.S.
2007-2009	Dean: Dr. Suhadak, M.Ec.
	 Vice Dean I: Dr. Endang Siti Astuti, M.Si.
	 Vice Dean II: Dr. Zainul Arifin, M.S.
	• Vice Dean III: Dr. M.R. Khairul Muluk, S.Sos., M.Si.
2009-2013	 Dean: Prof. Dr. Sumartono, MS.
	 Vice Dean I: Prof. Dr. Bambang Supriyono, MS.
	 Vice Dean II: Dr. Zainul Arifin, MS.
	 Vice Dean III: Drs. Heru Susilo, M.A.

	 Vice Dean II: Dr. Zainul Arifin, M.S. Vice Dean III: Dr. M.R. Khairul Muluk, S.Sos., M.Si. Dean: Prof. Dr. Sumartono, MS. Vice Dean I: Prof. Dr. Bambang Supriyono, MS. Vice Dean II: Dr. Zainul Arifin, MS. Vice Dean III: Drs. Heru Susilo, M.A. Dean: Prof. Dr. Bambang Supriyono, MS. Vice Dean I: Dr. M.R. Khairul Muluk, S.Sos., M.Si. Vice Dean II: Drs. Heru Susilo, M.A.

B. ACADEMIC DEVELOPMENT AND PROGRAMS ESTABLISHMENT

Administrative science did not exist in Indonesia during the preindependence period until 1951-1955 when the foundation of the science was first established as the early Indonesian government felt the necessary to build and manage the country in a more systematic manner, which is the core focus of public administrative studies.

Along with that, there was a shift of orientation in US from legal-continental to more practice and pragmatic in viewing the process of public administration. Thus, the aspects of this administration were not merely limited on the legal knowledge, but the principles of the Administrative Science itself influence the Jurisprudence, particularly the administrative law.

Beginning from 1954, there were attempts to establish Faculty of Public and Trade Administration at University of Indonesia; yet, as there was no concensus among people involved, such a faculty was hardly established. Nevertheless, the attention and discussions on this matter kept continuing. In the same year, the Government of Indonesia, through the hands of University of Indonesia, invited two experts, namely, Edward H. Litchfield (Dean of School of Public and Business

Administration at Cornell University) and Alan C. Rakin, to prepare and send a report and recommendation regarding administrative education in Indonesia.

Their report, entitled "Training for Administration in Indonesia", sent to Soepomo on May 1954, consisted of information on administrative science and, the most important part, a review on the latest development of the science. Moreover, the report also suggested the establishment of a formal faculty of administrative science and offered some grants from foreign countries, the forming of the so-called Executive Development Program, and the forming of a formal organization which would take care of the development of administrative science in Indonesia.

In order to respond to the report, a committee was formed with Mohammad Hatta (the Indonesia's Vice President) as the chair and H. Juanda, M. Hutasoit, Sumarman, and several other people as the members. In the committee's point of view, two points in the report were considered not appropriate and, therefore, suggested further actions. First, the implementation of the suggestions of the report must be taken care by Indonesian people without any intervention from outside parties. Second, there was a need to combine the public and business administrative sciences into one faculty.

In 1957, an administrative science program was established under Faculty of Social and Political Sciences at Gadjah Mada University, Jogjakarta, in cooperation with Indonesia's Ministry of Interior to produce professionals in government administration. A foreign expert, named Garth N. Jones, was once invited to share his expertise in public administration. Within the same year, exactly on February 13, 1957, the current Minister of Education and Culture, Sarino Mangoenpranoto, formed Committee for Establishing Public Administration Council. The committee worked to finally establish Public Administration Council on August 6, 1957, with the first Director was Prajudi Atmosudirdjo.

It was in 1957, too, that School of State Governance and Trade Management was established as an extention to Faculty of Economics. Moreover, Administration Training Center was established at Gadjah Mada University, Jogjakarta, on April 19, 1960. In the period of 1957-1964, there had been developments in administrative science in Indonesia that could be seen from a great number of paper publications.

During 1960-1965, the existence of public administrative and trade administrative sciences were formally admitted with the issuance of Higher Education Act number 22 of 1961. The act also formally categorized both sciences under the group of social sciences.

On December 1961, Convention on Public and Business Administration was held. The event was also marked as one important remark in the history of the development of administrative science in Indonesia. The convention concluded that the existence of State Governance and Trade Management Department under Faculty of Law, Faculty of Economics, or Faculty of Social and Political Sciences was merely a stepping stone to its independent establishment as Faculty of Public and Business Administrations Sciences. The convention also recommended that any parties responsible for running such departments all over Indonesia meet and work together to foster the establishment of such a faculty.

By the end of 1963, some ideas put emphasis on a development administration as beginning from 1967, attempts to better plan developments were needed, thus demanding an improvement on both public administrative and trade administrative sciences. The concepts behind development administration was seen as inevitable in the development of Indonesia.

In 1971, the National Institute of Public Administration held a seminar entitled "The Role of Administrative Science in Fostering National Development". In the seminar, two experts were given a chance to deliver their ideas; the first was Drs. Soejekti Djajadiatma, MSPA (Dean of Faculty of Public and Business Administrations, University of Brawijaya, Malang), and the second was Dr. Buchari Zainun (Dean of STIA LAN) and Dr. Awaluddin Djamin, MPA who delivered their paper entitled "Administrative Aspects in National Development".

In 1974, Faculty of Public and Business Administrations, University of Brawijaya, held a seminar entitled "The Role of Administrative Science in Modernizing Villages". In the same year, exactly on August 23-31, 1974, a symposium was held under the theme "The Role of Administrative Science and Skills in Indonesia's National Development". One of the most important recommendations from the symposium was that a change of name was needed, that is, "Faculty of Administrative Science" to replace "Faculty of Public and Business Administrations". The change was considered relevant with the focus of the faculty that developed administrative science as a whole.

Another operational activity which was once carried out by the faculty was holding a Training on Village Administration across cities and regencies in East Java Province. Morever, the faculty also regularly held academic seminars as well as conducted research in both public administrative and trade (business) administrative sciences.

In 1976, the faculty offered a concentration in Local Government Administration within the curriculum of Public Administration Department and

Accounting within the curriculum of Business Adminsitration Department. On September 28, 1976, Drs. Bintoro Tjokroamidjojo, M.A. (Deputy of Adminstrative Affairs in Ministry of National Development Planning) was granted as Professor of Public Adminstration. This historical remark signs the high trust from both the society and the government seeing the faculty as a considerable higher educational institution. Being the first professor in the faculty, Prof. Bintoro directly and indirectly encouraged other lecturers to soon seek for their professorship.

In 1982, a Consortium of Social Sciences officially recommended Faculty of Public and Business Administrations at University of Brawijaya change its name into "Faculty of Administrative Science". From that on, the faculty had undergone numerous institutional as well as academic developments. In terms of institutional development, the faculty was the first to establish links between associations, such as ASPA, Business Administrative Science Association (*Asosiasi Ilmu Administrasi Bisnis*—AIABI), Indonesian Association for Public Administration (IAPA), and so on.

In terms of academic development, the faculty keeps in line with the latest development of scientific and practical demands. Until recently, the faculty has offered various programs in different levels as the following.

- 1. Sarjana's Degree Programs
 - a. Public Adminstration Department
 - 1) Public Administration Program
 - 2) Development Planning Program
 - 3) Government Administration Program
 - 4) Library Science Program
 - b. Business Administration Department
 - 1) Business Administration Program, majoring:
 - a) Financial Management
 - b) Marketing Management
 - c) Human Resource Management
 - d) Information System Management
 - e) Production/Operational Management
 - 2) Tax Science Program
 - 3) International Business Program
 - 4) Hospitality and Tourism Program
- 2. Master's Degree Programs
 - a. Master in Public Administration, majoring:
 - 1) Public Policy

- 2) Public Management
- 3) Local Financial Administration
- 4) Local Government Administration
- 5) Local Development Planning
- 6) Community Empowerment
- 7) International English-based classes, including:
 - Administrative Science at University of Brawijaya (Master of Public Administration/MPA) with Takushoku University (Master of International Development/MID), Ritsumeikan University (Master of Arts in International Relations/MA), Ritsumeikan Asia Pacific University-APU (Master of Science in International Cooperation Policy/M.Sc), Tohoku University (Master of Public Science/M.P.Sc), and GRIPS University (Master of Public Policy/MPP) in Japan and Prince Sangklah University and Burapha University Hemikal in Thailand.
 - b) Single Degree program
 - c) Fast Track program, which is a scholarship for a Master's degree from Directorate General of Higher Education
- 8) Master of Art in Higher Education/MAHE)
- b. Master in Business Administration, with concentrations in:
 - 1) Business Policy
 - 2) Human Resource Development
 - 3) Information System Development
 - 4) Organizational and Leadership Development
 - 5) Master in Applied Business Administration
- 3. Doctoral Degree Programs
 - a. Doctor in Administrative Science
 - b. Doctor in Business Administrative Science

C. VISION AND MISSIONS, EDUCATIONAL STANDARDS AND OBJECTIVES OF FACULTY OF ADMINISTRATIVE SCIENCE

- 1. Vision and Missions of Faculty of Administrative Science
 - a. Vision

To be a high quality educational institution in administrative sciences and admitted by communities both at national and international levels

b. Missions

- 1. To improve the quality and quantity in each of the Three Basic Principles of university, teaching and learning, research and community service
- 2. To create the ethos of administrative sciences in the community and to strengthen the position of alumni in the job market
- 3. To increase effectiveness and efficiency in management and faculty management

2. Educational Standards

Higher education under the supervision of Ministry of National Education is regulated by Minister of National Education Decree number 232/U/2000 concerning Higher Education. In accordance with the decree, academic education is all that involve *sarjana*'s degree, master's degree, and doctoral degree programs directed towards mastery of knowledge, technology, and arts. Diploma programs are those directed towards preparation to applying certain skills, while professional education deals with additional education after accomplishing *sarjana*'s degree program in order to gain certain skills and professional certificate relevant with the *sarjana*'s degree.

3. Educational Objectives

a. *Sarjana*'s Degree Programs

The *Sarjana*'s degree programs in the faculty are aimed at producing graduations possessing the following qualifications:

- Able to master basic academic concepts and skills in a certain discipline in order to identify, understand, describe, and eventually formulate solutions to problems beneath the discipline.
- 2) Able to apply knowledge and skills in a certain discipline in order to empower surrounding society with productive actions and services with regard to norms held by the society.
- 3) Able to behave and perform attitudes with regard to norms held by the society, contribute to the society in terms of their discipline, and live together within the society.
- 4) Able to comply with the latest knowledge, technology, and/or arts within their discipline.

Also, it is aimed at producing Administrative Science's *Sarjana* who:

1. is *Pancasila*-minded

- is noble, possesses integrity and are academically as well as socially responsible in his/her works and application of knowledge in the society
- possesses empirical knowledge and ability to technically analyze in the discipline of public administration and business administration as well as shows sensitivity in administrative matters
- 4. is able to develop public administration and business administration as sciences.

b. Master's Degree Programs

The Master's degree programs in the faculty are aimed at producing graduations possessing the following qualifications:

- Able to develop and present latest updates of knowledge, technology, and/or arts by mastering various approaches, methods, and empirical principles as well as ability to apply them in the field
- 2) Able to seek solutions to problems within their discipline through scientific research
- Able to perform their professional development by showing sharp analysis on certain problems, adequate reviews, and integrated solutions

Also, it is aimed at producing Administrative Science's Masterwho:

- 1. is *Pancasila*-minded
- 2. is noble
- 3. is able to keep improving his/her services to the society by conducting research
- 4. contributes to the development of his/her discipline
- 5. promotes his/her professional existence within a broader spectrum by improving his/her works
- 6. is able to formulate solutions in order to solve problems existing in the society.

c. Doctoral Degree Programs

The Doctoral degree programs in the faculty are aimed at producing graduations possessing the following qualifications:

- 1) Able to develop novel knowledge, technological, and art innovation in administrative science through research
- 2) Able to manage, direct, and develop research projects

3) Able to apply interdisciplinary approaches during their work in the field of administrative science.

Also, it is aimed at producing Administrative Science's Doctor who:

- 1. is *Pancasila*-minded and noble, and possesses integrity
- 2. is open-minded and aware of latest updates on administrative science-related knowledge, technology, and developments
- 3. is able to manage and conduct research in the field of administrative science
- 4. is able to develop the field of administrative science through independent or individual research projects
- 5. is able to apply interdisciplinary approaches
- 6. is self-encouraged to improve him/herself as a scientist
- 7. possesses broadened knowledge in the field of administrative science and any related fields

D. VISION, MISSIONS, AND OBJECTIVES OF SARJANA'S, MASTER'S, AND DOCTORAL DEGREE PROGRAMS IN ADMINISTRATIVE SCIENCE

1. Vision and Missions of Sarjana's Degree Programs

a. Public AdministrationProgram

Vision

To produce high quality graduates in Public Administration who are able to compete in global competition

Missions

- 1. To improve the quality and quantity in each of the Three Basic Principles of university, teaching and learning, research and community service
- 2. To make the best quality of Public Administration Department in all over the countries

Objectives

Considering the stated missions, any teaching and learning activities in Public Administration Department are held under the following objectives:

1. To produce professional and highly-dedicated *sarjanas* in public administrationwho possess sensitivity towards public administrative-related issues

- 2. To produce *sarjanas* in public administration who master administrative-related knowledge and technology in the field of development, local government, and public policies.
- 3. To produce *sarjanas* in public administration who are knowledgeable and able to develop public administrative science.

b. Planning Development Program

Vision

To be a national-leading, international standardized planning development Program which contributes to fostering national development through improvements in education quality, research, and community services.

Missions

- a. To integrate moral and spiritual values in the attempts to develop the planning development discipline.
- b. To provide guidelines and methods to scientific planning towards restructuritation and reformation within both local and national developments.
- c. To provide education to future decision makers and development operators who are able to interpret and implement applicable and sustainable desentralized planning and budgeting.
- d. To encourage the application of good governance principles in nation development through establishing strong, well-designed cooperative pillars between the state, the private sectors, and civil society.
- e. To improve the quality of lecturers as well as learning outcomes which are able to academically and practically revitalize, evaluate, revise, and provide solutions in each stage of development.
- f. To provide researchers who are able to formulate problems, apply various research methods, and propose alternative solutions towards issues in planning development both qualitatively and quantitatively.

Objectives

Planning Development Program aims to produce graduates who:

- 1. Possess comprehensive knowledge on the discipline as well as methods of research supported with technical and practical skills.
- 2. Perform critical and applicable analyses on planning, evaluation and program development, formulation of policies, and solutions to issues on both national and local developments.

- 3. Possess integrity and commitments towards the development of planning development systems.
- 4. Produce practical academic references and articles which can be used as guidelines to both local and national developments.
- 5. Are qualified to continue their study to a higher degree.

c. Government Administration Program

Vision

To be a scientific-based institution which produces professional and responsible experts in government administration who contribute to the development of knowledge as well as the governmental system of the Republic of Indonesia.

Missions

- 1. To be a melting pot of those interested in government administrative science coming from different points of view.
- 2. To contribute to the independence of the Republic of Indonesia by providing governmental concepts which puts a sole basis on the nation's interests and culture both in the local and national level.
- 3. To contribute to University of Brawijaya's attempts to be one center of excellence in providing professional and dedicated scholars.
- 4. To establish cooperations with any relevant parties, from the central government, local government, to local state institutions in order to improve the strategic role of the Three Pillars of Higher Education.

Objectives

Government Administration Program aims to produce graduates who:

- 1. are critical and able to academically contribute to the field of government adminstration.
- 2. possess political wisdom in seeking solutions to current and future issues in Indonesia's governmental system.

d. Library Science Program

Vision

To be a centre of education, research, and academic information in the field of library science in order to produce graduates who possess considerable quality and responsibility towards community empowerment.

Missions

- 1. To provide a theoretical- and empirical-based education to its students.
- 2. To develop the field of library science as a theoretical and empirical body of knowledge.
- To be a center of academic research in the field of library science and be responsible towards demands in the development of the society.
- 4. To produce independent and professional graduates in library science who possess academic-based skills.

Objectives

Library Science Program aims to produce graduates who:

- 1. are noble, academically skillful, innovative, and productive.
- 2. are able to identify and analyze any empirical phenomena in the field of library science.
- 3. are able to apply their theoretical knowledge in empirical research projects.
- 4. are able to comply with latest technological-based developments in the field of information.
- 5. are qualified to continue their study to a higher degree.
- e. Business Administration Program

Vision

To be a leading, internationally-standardized center of academic developments in the field of business administration.

Missions

To build student's potencial for the sake of developing and applying the field of administrative science to become an administrator who is creative, innovative, professional, able to comply with current advancement of technology, and uphold the values of honesty and responsibility.

Objectives

Business Administration Program aims to produce graduates who:

- 1. are sensitive to changes
- 2. possess leadership qualities
- 3. are creative and innovative
- 4. possess integrity and social and professional networkings
- 5. perform good ethics in daily life

A *sarjana*in the field of business administration must possess competencies in:

- 1. Analyzing surrounding environment to detect any threads and opportunities towards a business organization
- 2. Formulating a clear and concise organizational vision and mission(s)
- 3. Formulating clear and concise organizational objectives and targets
- 4. Designing and developing comprehensive business plans in terms of organizational functions: operation, finance, marketing, human resource, and information system.

f. International Business Program

Vision

To be an internationally-recognized, highly-qualified, and competitive institution in the field of international business.

Missions

- To provide an effective, efficient, accountable, and sustainable educational system leading to providing graduates in the field of international business
- 2. To produce educated graduates who are able to develop and perform their skills in the field of international business as well as compete in global competition
- 3. To actively participate in the development of international business science with the spirit of professionalism
- 4. To establish mutual cooperations in the field of international busiess with relevant parties (the state, industries, and so on) within the framework of the Three Pillars of Higher Education

Objectives

International Business Program aims to:

- Develop an educational system which complies with current development in science and technology supported by highly qualified human resources
- 2. Produce highly-qualified and professional graduates in the field of international business who are able to compete in global competition
- 3. Contribute to the development of the field with regionally-, nationally-, and internationally recognized academic outcomes

4. Cooperate with relevant parties in the development of research and community service

g. Tax Science Program

Vision

To be an internationally-recognized, highly-qualified, and competitive institution in the field of tax science.

Missions

- 1. To improve the quality and quantity of the implementation of the Three Pillars of Higher Education in the field of tax science.
- 2. To create an ethos in administrative science, particularly in the field of tax science, and to strengthen the alumni's position in the job market.
- 3. To establish a strategic relationship between the faculty and users of the alumni, particularly in the field of tax science.

As stated in its vision and missions, the Tax Science Program attempts to satisfy the needs of Indonesia's development on professionals in the field of tax science who are able to compete in global competition.

Objectives

Instructional activities in the Program are directed to satisfy the following objectives.

- 1. To create an educational system which is relevant with the advancement of science and technology supported by highly qualified human resources.
- 2. To produce graduates in the field of tax science who uphold professionalism, moral integrity, and are able to compete in global competition.
- To establish mutual, effective cooperations with relevant parties in research projects and community service actions in the field of tax science.

The Expected Core Competencies

The curriculum of higher education reflects the competencies of outcomes of a Program. The curriculum of the Tax Science Program is designed in such a way that it reflects the vision, missions, and objectives of the competencies.

Competencies

The alumni are expected to be able to:

1. Understand various concepts and discussions in tax-related issues in many aspects of the nation.

- 2. Possess professional skills which are ready to be applied in various positions, such as in a government institution, a tax office, a tax consultant office, a tax appraisal office, and in any other business and state organizations.
- 3. Conduct research in the field of tax science.

h. Hospitality and Tourism Program

Vision

To be an internationally-recognized, highly-qualified, and competitive institution in the field of international business with a strong commitment to the development of the field as demanded by national and international markets.

Mission

- 1. To carry out an education in the field of hospitality and tourism which leads student to think critically, creatively, and innovatively.
- 2. To conduct research and other academic-based activities in the field of hospitality and tourism and to publish the results as enrichment to the body of knowledge.
- 3. To carry out community services based on the results of research as demanded by the society.
- 4. To produce professional graduates who comply with users' demands.
- 5. To provide a tourism-based educational service to student with regard to building competencies based on spiritual values and global insight.

Objectives

The alumni of the Program are expected to:

- 1. Possess understanding on the theoretical concepts of hospitality and tourism as a part of other social sciences.
- 2. Possess the ability to produce and interpret conceptual solutions to problems into tactical steps.
- 3. Apply the theories of hospitality and tourism in practical circumstances.
- 4. Possess the ability to conduct interpersonal communication.
- 5. Be able to work with regard to professional spirit as well as ethical and spiritual values.

2. Vision, Missions, and Objectives of the Master's Degree Programs

a. Vision, Missions, and Objectives of Master in Public Administration *Vision*

To be a highly qualified and recognized institution which sets a priority in the development of education, research, and community service as well as actively participate in improving civilization, science, and technology leading to an internationally recognized institution in 2015.

Missions

- 1. To provide a national and international quality of education in the attempts to build students to become highly qualified, religious, and academically as well as professionally skillful people that they can actively participate in the development of the society and the nation within the framework of good governance.
- 2. To disseminate research findings in the field of public administration and to make use such science and technology in global context in order to better improve the society's culture.
- 3. To apply the science and technology learned in the Program through community services which can be useful to better improve the society's standards of living.

Objectives

The program aims to produce graduates who:

- Are able to master any related theories, concepts, and research methods which are relevant with the field of public administration, so that further planning, implementation, and analysis may help them to prepare for continuing their study in a higher degree.
- 2. Possess an analytical skill in order to develop their academic and professional competencies in a certain professional organization.
- b. Vision, Missions, and Objectives of Master in Business Administration *Vision*

To be a center of excellence in education, research, and community service as well as to actively participate in the advancement of civilization, science, and technology and to be able to provide solutions to any related issues in the field of business administration both in national and international level.

Missions

- 1. To carry out highly qualified, accountable instructional process in order to achieve the competencies of the Program.
- 2. To improve research in the field of business administration in order to produce better scientific and technological insights.
- 3. To apply the knowledge through community services, such as holding trainings, assistance, and seminars which are helpful to the society, business organizations, and the government.

Objectives

To produce graduates with the following qualifications:

- 1. Open and responsive towards changes and development of science and technology as well as issues within the society.
- Mastering theoretical and methodological bases of administrative science that the results of their research in the field of business administration comply with the needs of the body of knowledge and the society.
- 3. Able to develop their professional competencies in a certain professional organization.

3. Vision, Mission, and Objective of the Doctoral Degree Program

Vision

To be the center of well-recognized Indonesia's human resources in the field of administrative science (public and business administrations) and to produce noble graduates that can contribute in its highest level to the humanity and prosperity of the Republic of Indonesia.

Missions

- To carry out highly qualified and efficient instructional process which attempts to learn the latest advancement of the field of public and business administrations which is in accordance with the development of science and technology in the globalization era.
- 2. To develop a scientific tradition which bases on critical analysis and argumentative turn towards the latest phenomena in the field of public and business administrations leading to Indonesia's good governance and good corporate governance.
- 3. To sharpen research findings and developmental activities that can establish state-of-the-art public and business administrative sciences.
- 4. To improve and sharpen any proactive attempts within public and business sectors.

5. To create highly qualified doctors who are able to apply good attitudes and scientific principles.

Objective

To produce noble doctors who are able to review, analyze, develop, and apply public and/or business administrative sciences in order to improve the society's and the nation's welfare.

CHAPTER II EDUCATION SYSTEM

As one of the faculties in University of Brawijaya, Faculty of Administrative Science applies the credit system in its academic affairs. This is in line with the regulation set by the university according to the Rector Decree number 22/SK/1976 dated May 3, 1976. Moreover, the faculty also considers the Indonesia's Government Regulation number 60 of 1999 concerning Higher Education, Minister of National Education Decree number 232/U/2000 concerning Guidelines to Curriculum Design and Student's Outcome Evaluation for Higher Education, Act number 20 of 2003 concerning the National Education System, Guidelines to the Implementation of Credit System for Higher Education, Guidelines to Educational Process for Higher Education based on the Credit System, and Guidelines to Education System for University Lecturers. Therefore, Guide to the Implementation of Credit System is published as a sole basis of the implementation of the system in University of Brawijaya.

As a higher education institution, Faculty of Administrative Science employs the credit system with six factors to consider, as follows:

- 1) The students who by nature consist of unique individuals with their own potentials, interests, and academic performances
- 2) A growing demand from the society for experts in various aspects of life
- 3) The advancement of science and technology in recent days
- 4) The need for adequate facilities, such as classrooms, libraries, and labs
- 5) Staffs which can contribute to the success or failure of the education process
- 6) Lecturers which are the key component to the learning outcome

A. THE DEFINITION OF CREDIT SYSTEM

1. Credit System

- a. The credit system gives value to student's study load, lecturer's work load, and an operational load to the education system which is stated in the form of a credit unit.
- b. A credit unit states the content of a course quantitatively.
- c. The characteristics of the credit system are:
 - 1) A university course is weighted by means of credit hour(s).
 - 2) Different credit hour(s) for various courses apply.
 - 3) Credit hour(s) for a course is based on the number of instructional activities both in the classroom and the lab (if any) as well as field works and the like.

2. Semester System

- a. A semester system is a system of education that divides one academic year into two terms (or simply called "semester").
- b. A semester is the smallest unit of time to indicate the length of an educational activity which is equal to 16-19 weekdays, including the time for classroom meetings and a final examination week, or 22 weekdays, including two silent weeks.
- c. Activities within one semester include classroom meetings, seminars, lab activities, field works, and structured and independent learning activities.

3. Semester Credit System (Sistem Kredit Semester, hence referred to "credit")

- a. Semester credit system is measured by means of one semester.
- b. There are two objectives attempted to achieve by means of this system:
 - 1) General Objective

To satisfy the nation's demands, universities face a challenge to provide a varied and flexible educational program. With such a program, the students are given a wide opportunity to determine and manage the curriculum and their individual strategies to achieve the objectives of learning, so that the best learning outcome may be expected to appear from the individual students.

2) Specific Objectives

- To give students with high academic performance a wide opportunity to finish their study within a shorter time
- b) To provide students with options of courses that comply with their individual talents and interests
- c) To enable an educational system by which a composite input and output is provided
- d) To keep a space for any changes in curriculum with regard to recent updates of science and technology
- e) To perform the best evaluation system of the students' academic progress

- f) To enable a credit transfer from a Program to another, from one faculty to another within the same university, or from one university to another
- g) To enable student's movement from one university to another or from one Program to another within the same university
- c. The credit system is to measure a student's study load, his/her study progress, and to weigh a lecturer's academic-based work load.
- d. In the beginning of every new semester, a list of available courses is provided along with the credit value of each course, reflecting the load of activities within a particular course.

B. SEMESTER CREDIT UNIT AND STUDY LOAD

1. The Semester Credit Hour for a Class

For each course, one semester credit hour (or credit) reflects the load of academic activities in one week as the following:

a. For Student

- 50 (fifty) minutes of a scheduled face-to-face meeting with the lecturer, including classroom meeting, seminar, and other classical instructional methods
- 60 (sixty) minutes of structured academic activities, that is, certain activities which are not regularly scheduled but designed by the lecturer, such as doing homework
- 60 (sixty) minutes of independent academic activities, that is, individual activities in order to study or prepare for coming academic activities, including reading reference books.

b. For Lecturer

- 50 (fifty) minutes of a scheduled face-to-face meeting with the students
- 60 (sixty) minutes of planning and evaluating a structured academic activity
- 60 (sixty) minutes of designing materials of the course

2. The Semester Credit Hour for a Seminar

When holding a seminar in which a student is obliged to present a material to a forum, 1 (one) credit equals to one credit of a class, that is, 50 (fifty) minutes of a face-to-face meeting in a week.

3. The Semester Credit Hour for Lab, Research, and Fieldwork

One credit is equal to 2-5 hours of lab, research, or fieldwork activities in a week for the whole semester, or sums up 32-80 hours of activities per semester.

- The Semester Credit Hour for Lab Activities
 One credit is equal to 2-3 hours lab activities in a week for the whole semester.
- b. The Semester Credit Hour for Research, Thesis and Dissertation Writing

One credit is equal to 3-4 hours research activities a day for one month, which consists of 25 working days.

The Semester Credit Hour for Fieldwork
 One credit is equal to 4-5 hours doing fieldwork activities a week for one semester.

4. S1 Students' (Sarjana's Degree Program)Study Load

The study load of an S1 student in one semester is determined by an average amount of time needed for working in a day and his/her personal capacity. Generally, people work 6-8 hours a day for five days in a row. Yet, a university student may need a longer working hour as he/she works not only in the morning but also in the evening. Assumed that a student works 6-8 hours a day in the morning plus 2 hours in the evening for five days in a row, the amount of his/her study time is 8-10 hours a day or 48-60 hours a week.

If one credit is more or less equal to 3 working hours, then the study load of a student in every semester will be equal to 16-18 credits or around 18 credits. To determine a student's study load for one semester, one needs to consider his/her personal capacity based on his/her academic achievement in the previous semester by means of the GPA system.

The GPA in one semester is counted by the following formula:

$$GPA = \frac{\sum_{i=1}^{n} Ci.Si}{\sum_{i=1}^{n} Ci}$$

where:

GPA is Grade Point Average, either per semester or cumulative

C is the number of credit each course possesses

S is the final score of each course is the number of courses taken

The study load of all students in the first semester is set similar with one another, while in the next semester it should be based on a student's GPA under the following convention:

Grade Point Average (GPA)	Allowed Study Load (credit)
≥ 3.00	22 – 24
2.50 – 2.99	19 – 21
2.00 - 2.49	16 - 18
1.50 - 1.99	12 – 15
< 1.50	< 12

5. S2 Students' (Master's Degree Program) Study Load

The study load of S2 students is 39 credits (for those takinga program parallel with their *sarjana*'s degree) and 42 credits (for those taking a program unparallel with their *sarjana*'s degree and/or graduating with GPA less than 2.75).

For those taking a program parallel with their *sarjana*'s degree, they should undertake the following course structure:

1)	Compulsory courses (the Program)	6 courses	= 18 cr
2)	Compulsory courses (individual interests)	4 courses	= 9 cr
3)	Elective courses	1 course	= 3 cr
4)	Thesis		= 9 cr
	Total		= 39 cr

For those taking a program unparallel with their *sarjana*'s degree and/or graduating with GPA less than 2.75, they should undertake the following course structure:

1)	Prerequired courses	1 course	= 3 cr
2)	Compulsory courses (the Program)	6 courses	= 18 cr
3)	Compulsory courses (individual interests)	4 courses	= 9 cr
4)	Elective courses	1 course	= 3 cr
5)	Thesis		= 9 cr
		Total	= 42 cr

The prerequired courses may be taken before the first or the second semester starts or during the first or the second semester.

Those wishing to take the Master Linkage or Double Degree program in Public Administration should undertake 37 credits consisting of 9

compulsory courses (27 credits) during their first year in Indonesia and begin their thesis writing during their study abroad in Japan. There, 6 universities have acknowledged the 10 credits of courses undertaken at Faculty of Administrative Science, University of Brawijaya, or at other overseas universities.

Those wishing to take the Fast-Track Master's Degree Program and Double Degree program in Business Administration should undertake 39 credits consisting of 10 compulsory courses (30 credits) during their first year in Indonesia and begin their thesis writing during their study abroad. There are 3 universities in Taiwan and 1 university in Thailand which have acknowledged the 9 credits of courses undertaken at Faculty of Administration, University of Brawijaya, or at other overseas universities.

- 6. Doctoral Degree Program Study Load
 - In order to finish a doctoral degree program, students have to satisfy the following requirements:
 - 1) Those taking a program parallel with their master's degree should undertake 50 credits consisting of classroom meetings and lab activities (22 credits) and dissertation (28 credits).
 - 2) Those taking a program unparallel with their master's degree should undertake 52 credits consisting of classroom meetings and lab activities (24 credits) and dissertation (28 credits).

The maximum number of credits allowed to take in the first semester is 12, while the load for the next semesters should be based on a student's academic achievement (GPA of the previous semester) and suggestions from his/her academic supervisors.

C. THE CURRICULUM

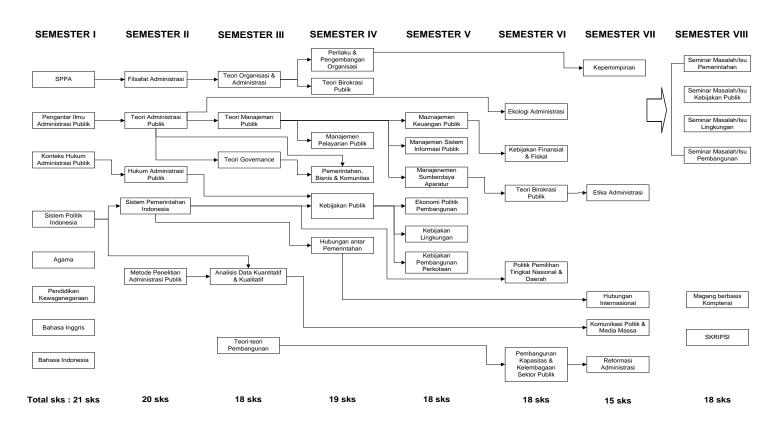

The design of the curriculum as a guideline in the instructional process refers to the Minister of National Education Decree number 232/U/2000 dated December 20, 2000, the Act number 20 of 2003 concerning the National Education System, and the General Director of Higher Education Decree number 43/DIKTI/2006.

D. Assessment on Academic Ability

1. Sarjana's's Degree Program

a. General Provision

- Academic ability assessment activities of a course are assessed from structured assignment, quiz, midterm (UTS), final examination (UAS) and practicum activities assessment.
- b. Structured activities in an academic ability assessment of a course in a semester is conducted at least twice (2) in a semester
- c. Midterm and final examination are conducted according to the schedule which has been determined in academic calendar.
- d. Assessment from structured assignment, quiz, midterm, final and practicum examination is intended to determine final score (FS) with certain weighting. The amount of weight from each component submitted to the lecture of the subject matters.

b. Final Score

- The student's achievement assessment success for every course is based on three alternative assessments that are stated as follow:
 - a) Using standard assessment reference system (PAP) by determining the graduation limit
 - b) Using normal assessment reference systems (PAN) by comparing a student score with his/her classmates' score.
 - c) Using combination system between PAP and PAN by determining graduation score limit first and then comparing the relatively passing score with his/her classmates' score. It is recommended that the assessment scoring system use PAN or the combination between PAN and PAP.

- 2. Final course result assessment is stated with letter (HM) and number (AM).
- 3. The allocation of score on each activity can be done with quality letter grades based on the quality number with raw number range (0-100).
- 4. The assessment weight of an activity of a subject matter is determined by the balance of the overall material activities with the course material in one semester.
- 5. The calculation of final score is done by weighting each class activity in one semester by using the following formula:

$$\sum_{i=1}^{n} Bt_i. Nt_i + Bq_i. Nq_i + Bm. Nm + Ba. Na + Bp. Np$$

$$\sum_{i=1}^{n} Bt_i + Bq_i + Bm + Ba + Bp$$

Bti is a weight score of a structured assignment no i
Bqi is a weight score of a quiz no i
Bm is a weight score of midterm examination
Ba is a weight score of final examination
Bp is a weight score of practicum
Nti, Nqi, Nm, Na, Np is every academic activities

6. The calculation of the formula in point (2) and point (5) is converted to the following letters and numbers:

Numeric Value	Quality	Quality	Class Capabilities
	Letter	Number	
> 80 - 100	A	4	Very good
> 75 - 80	B+	3.5	Between very good and good
> 69 - 75	В	3	good
> 60 - 69	C+	2.5	Between good and fair
> 55 - 60	С	2	Fair
> 50 - 55	D+	1.5	Between fair and less
> 44 - 50	D	1	Less
0 - 44	Е	0	Fail

c. Remedy and Specific Examination

- Remedy and specific examination are aimed to improve the final achievement of the courses that students have ever taken by:
 - a) Following all academic activities that are related to the course in the semester in which the courses that will be repaired are offered. Remedy examination is intended to courses with the C as the highest score, while for the final score, the best score is taken.
 - b) Specific examinations is intended for students who have accumulated 141 credits and have completed the final task, but earn GPA that is less than 2.00
- 2. Specific test applies to courses with a maximum score C+

d. Supplementary Examination

Supplementary examinations can be conducted under the provisions of the faculty. Supplementary examinations in the Faculty of Administrative Sciences, University of Brawijaya, apply only to students who at the examination time cannot take the exam due to illness, accident/crash, the task of the faculty/university or other purposes deemed appropriate by the Vice Dean of Academic Affairs or Head of the Department. Supplementary examinations performed 1 week after the regular exam is completed, with the following conditions: (1) the student who join supplementary exam

apply a letter of statement attached, (2) the letter received by Vice Dean of Academic Affairs cq. Head of Academic Affairs no later than on the last day of the regular examination held.

2. Master's Degree Program

The assessment of academic ability in a course is conducted through structured tasks, paper-writing, class discussion, midterm and final examination. Academic assessment activities are carried out at least twice (2) in a semester, the midterm and final examination are adjusted to academic calendar schedule. The assessment is left entirely to the lecture team coordinated by a lecturer by using letters and numbers as shown in the following table:

Numeric Value	Quality	Quality	Class Capabilities
	Letter	Number	
> 80 - 100	Α	4	Very good
> 75 - 80	B+	3.5	Between very good and good
> 69 - 75	В	3	good
> 60 - 69	C+	2.5	Between good and fair
> 55 - 60	С	2	Fair
> 50 - 55	D+	1.5	Between fair and less
> 44 - 50	D	1	Less
0 - 44	Е	0	Fail

3. Doctoral Degree Program

The student achievement assessment in academic activities use the following terms:

- a. The assessment result of a course is left entirely to each subject lecturers
- b. The final score of the course who is taught by more than one lecturer is the combination score of all the lecturers that is combined by the coordinating lecture
- c. The final score is the combination scores from structured assignments, midterm, and final examination
- d. The assessment guidelines is stated in the following table

Numeric Value	Quality	Quality	Class Capabilities
	Letter	Number	
> 80 - 100	A	4	Very good
> 75 - 80	B+	3.5	Between very good and good
> 69 - 75	В	3	good
> 60 - 69	C+	2.5	Between good and fair
> 55 - 60	С	2	Fair
> 50 - 55	D+	1.5	Between fair and less
> 44 - 50	D	1	Less
0 - 44	E	0	Fail

E. Academic Misconduct Penalties

Academic Misconduct Penalties are imposed to *Sarjana's*, Master's and Doctoral degree students who commit academic violations:

- a. Students who attend classes less than 80% are not allowed to take the final examination of the relevant course.
- b. Students who cancel a course beyond the time that has been specified, then the course cannot be canceled and calculated to determine the GPA.
- c. Students who are cheating in an examination are due to penalties which may include cancellation of the entire semester study plan or other sanctions that established by the Dean. Sanctions or punishment given to students who commit fraud in addition to the above, based on the weight of fraud committed, so the penalty is applied as follows:

1) Penalties Level I

The penalty rate is applied to students who perform suspicious actions during the exam, such as talking, sitting without calm attituted and else. They will be warned by the invigilator.

2) Penalties Level II

The penalty rate is applied to students who during a test put books, records or things which are intended for the benefit of the exam without the permission of the examiner, the exam is replaced by others using the exam paper which is not provided by the faculty, copying, imitating or copying the work of other test taker, including those who provide opportunities, and to exchange or switch the

exam answer sheets to other students, he/she will be punished to be disqualified from the exam that he/she follows.

- 3) Penalties Level III
 - The penalty rate is applied for students who have done punishment level II and conducting the same violation. Those will get a punishment in that he/she will be disqualified from his/her concerned course.
- d. Student who commits violations by buying/selling, stealing, offering /delivering exam questions that will be tested will be excluded with no respect as a student of Faculty of Administrative Science, University of Brawijaya.
- e. Students who are done other student's examination or students in which his/her exam is done by someone else may be sanctioned in the form of cancellation of all test, in the semester.
- f. Students who conduct unauthorized changes in their KRS may be punished in the form of KRS cancellation for all courses in the semester.
- g. Students who commit illegal grade changes will be suspended for a maximum of two (2) semesters and not counted as a terminal.
- Students who commit such violations if it is accompanied by threats of violence or inducements, or promises or gimmick will be expelled from the faculty
- i. Students who are known to commit fraud in the making of the final report, *Sarjana's* thesis, Master's thesis and dissertation, then the whole plan of the semester will be canceled.
- j. Students who are convicted a criminal offense that upheld by a court ruling will be given the academic penalties in the form of:
 - Suspension when the punishment is less than a year
 - Dismissed as a student of Faculty of Administrative Science, University of Brawijaya
- k. Students' scientific work that is proven as the result of plagiarism can be penalized in the form of cancellation of the scientific papers and final assignments scores and to be considered to be expelled / fired as student of Faculty of Administrative Science, University of Brawijaya

- l. Students who imitate the signature of the official authorized on their KHS and a revised letter of statement of scientific work was suspended more than 2 (two) semesters and not counted as a terminal.
- m. Students who have imitated transcripts of score, certificate may be expelled/dismissed as a student of Faculty of Administrative Science, University of Brawijaya

F. FINAL EXAMINATION OF SARJANA, MASTER AND DOCTORAL DEGREE

Sarjana's, Master's and doctoral degree program in Faculty of Administrative Science, University of Brawijaya is conducted by means of credit system and is finished by a final examination.

1. Final Examination for Sarjana's Degree

Final assignment of *Sarjana's* program

For final exam tasks *Sarjana's* program, a student is assigned to make the final project in the form of a thesis, namely scientific work in the field of science that is based on a study, library research, field practice, job training, or other tasks that are set in the Preparation Manual Tasks end / Thesis and Field Work Experience Handbook.

- a. Requirements to write final assignment of *Sarjana's* degree Students are allowed to make a final assignment if following these several requirements:
 - 1) Enrolled as a student in concerned academic year
 - 2) Has taken 110 or more and credits of 110 credits have been obtained no E score
 - 3) Has taken 3 courses of concentration for students majoring in business administration
 - 4) At least 2:00 GPA
 - 5) There is no E for the prerequisites course
 - 6) Grade D/D+ should not exceed 10% of the total credit load
 - 7) Research methods course did not get grade E or K
 - 8) Met the other requirements set forth in the handbook preparation of final project

- b. The procedures and methods of writing the Final Course
 - 1) Pick up and fill out the submission form in the sub-section of academic titles, and a letter of credits that have been earned and courses related to the title, subsequent documents submitted to the department
 - 2) Submit three copies of the title to the department and also 1 sheet of 3x3 photographs
 - 3) Selecting and deciding one (1) title through consultation to department
 - 4) The things that are not in this book are dealt with separately in the preparation of the final project guidebook *Sarjana's* program

c. Final assignment credit score

Final assignment credit score for *Sarjana's* program at least six (6) credits

d. Final Assignment time limit

- 1) Final assignment must be completed within six (6) months since the final assignment is programmed in KRS
- 2) The extension of time must be approved by the Dean / Head of Department with the procedures regulated in the final assignment manual preparation for *Sarjana's* program

e. Thesis Supervisor

In writing a final assignment, a student is guided by 2 people that consist of a primary supervisor and an assistant supervisor.

- 1) the terms of supervisor
 - The main supervisor have functional academic position at least as an Associate Professor, with additional tittle of Master's degree/equivalent.
 - Supervisor assistance have functional academic positions as least as a Lector with additional tittle of Master's degree/equivalent or assistant expert with additional tittle of Doctorate degree/equivalent.

c. Determination of supervisors outside the above requirements are determined by the Dean/Head of the program upon the recommendation of the Head of Department/Study Program.

2) Determination of supervisor

Dean /Head of Program/Section determine a main supervisor and an assistant supervisor on the proposal of the Head of Department /Head of Study Program. A lecturer who comes from outside faculty/guest lecturer can be determined as the main supervisor or an assistant supervisor.

3) Duties and Obligations of Supervisor

The main duties and responsibilities of supervisor are:

- a. Assisting students in finding problems that become the basis of final assignment
- b. Guiding students in the implementation of final assignment
- c. Guiding students in the writing of final assignment

Duties and obligations of the assistant supervisor are to help the main supervisor in implementing the guidance of students' final assignment.

• Character and Purpose of final project of Sarjana's program

- a. Final project of *Sarjana's* program is the final test to be taken as a requirement for students to get a *Sarjana's* degree
- b. Final exam project of *Sarjana's* program is comprehensive
- c. Examination conducted orally and aims to evaluate student mastery of science and application of technology in accordance with the areas of expertise
- d. Final project of Sarjana's program also aims to equip students about things that are considered as the students' weakness.

• Requirements to take the Final Exam of Sarjana's Program

A student was allowed to take the thesis exam of *Sarjana's* program if he/she meets the requirements that stated as follows:

a. Enrolled as a student in the concerned academic year

- b. Accumulated 136-141 credits
- c. Obtaining at least 2.00 GPA
- d. No E grade
- e. Has completed the final assignment
- f. Having a certified English with a minimum 500 score of TOEIC or 450 score of TOEFL
- g. Having at least 2 applications computer certificate program
- h. Meeting other requirements that arranged in the handbook preparation of final project
- i. Grade D/D+ does not exceed 10%.

• Procedures for Requesting Final Assignment of Sarjana's program

Procedure for requesting final assignment is arranged in the manual guideline of final assignment by paying attention to the administrative and academic requirements.

- a. The Final Examination Board of Examiners of Sarjana's program
 - 1) The board of examiners is determined by the Dean upon the recommendation of the head of the department
 - 2) The composition of the board of examiners consists of a chairman of the supervising committee, a member of the supervising committee and 2 examiner lectures.
 - 3) The chairman and the secretary of the board of examiners is the head and the secretary of the department/program of study or other faculty lecturer who appointed by the head of department
 - 4) The examiners are lecturers who fulfill the following requirements: at least have functional positions as lectors for lecturers who holds S-2 (Master's) degree or expert assistants for lecturers who holds S-3 (Doctorate) degree.
 - The determination of examiners outside the above requirements is determined by the Dean upon the recommendation of the head of department.
 - 5) The members of examinee can be consisted of a supervisor or a non-supervisor. Examiners who is not a supervisor can be appointed from other institution in accordance with the field of

- expertise of students' final assignment that appointed by the Dean upon the recommendation of the head of department.
- 6) The duties of the final assignment board of examiners of *Sarjana's* program are stated as follow:
 - a) The head of the board of examiners is responsible for the smoothness of the examination implementation
 - b) The tasks of the board of examiners are to test and to give evaluation.
- b. Time Allotment for Final Assignment of *Sarjana's* Program

 The time provided for final assignment exam is no more than 2

 (two) hours.
- c. Assessment
 - 1) Assessment in final assignment of *Sarjana's* program is stated as follow:
 - a. Final assignment quality (thesis) which includes the weight of academic and writing procedures
 - b. Appearance during examination process
 - c. Mastery of the material that shown when answering the questions from the board of examiners
 - d. Other components beside the three components above that arranged in the preparation of final assignment handbook for Sarjana's program
 - 2) The determination of Final Score
 - Chairman of the board of examiners leads the discussion to determine the final score of the examination that represented by the letters of A, B+, B, C+, C, D+, D or E. The final score of final assignment also includes the score of the implementation of final assignment and the score of the seminar proposal and other components which arranged in the preparation of final assignment handbook for *Sarjana's* program.
 - 3) The students declared to have passed the final assignment for *Sarjana's* program if the student achieve at least grade of C.
 - 4) Students who declared have not passed the final assignment should implement the decision from the board of examiners.

d. Sarjana's Judicium

a) A student can be declared that he/she has passed the final assignment for *Sarjana's* program if he/she has met requirements as stated in the terms of making the final assignment for *Sarjana's* program and he/she did not exceed maximum study period of 7 (seven) years.

b) Predicate

Predicate of graduation consists of three levels, they are satisfying, very satisfying and with honor (cum laude) that stated on the academic transcript. Grade point average (GPA) as a basis to determine predicate of graduation are:

- 1) to 2.75 GPA: Satisfying
- 2) GPA> 2.75 to 3.50: very satisfying
- 3) GPA> 3.50 to 4.00: cum laude (with honors)

Predicate of graduation with honors (cum laude) is determined by these conditions:

- 1) 4-year study period
- 2) The entire score is not obtained from the remedy test
- 3) The score of thesis is A.

2. Final Assignment for Master's Degree

1) Thesis

Thesis is the final assignment for postgraduate student, in the form of paper which is written based on research result. Thesis is written in a manner and format in accordance with applicable regulation and the compilation is guided by the supervising committee. The weight of the thesis is at least 9 credits.

The process of making and completing of the thesis are consists of:

- (a) making the proposed research, (b) test the proposed research,
- (c) implementation of research, (d) thesis draft writing, (e) results of research seminars and (f) the thesis examination.

The Weight Ratio of the Thesis Component is Stated as Follows:

- (1) Research proposals 10%
- (2) The implementation of the study 20%

- (3) The results of research seminars 30%
- (4) Thesis final examination 40%

Score for point (2) and (3) is given by the supervising committee, while the point (1) and (4) are given by a team of examiners. Thesis result seminar is an academic activity to discuss in the form of a scientific paper in the journal article.

Score is given in accordance with the prevailing system. The final value is the average (according to the weighting) of the values mentioned earlier.

Minimum passing grade for thesis examination is B. If the students' grade is less than that, the students must repeat the test and given 1 (one) chance to repeat. If the student does not pass the exam again, then the concerned student is given a special task (with the approval of the head of department) to fix the thesis script or stated failed in Master's degree program.

The script reparation (based on suggestions from thesis board of examiner) must be completed no later than three (3) months after the thesis examination. If the reparation script in specified time limit is run out and the thesis script improvement has not been completed and the student cannot give his/her reason to the supervising committee, than the head of the supervising committee may propose that the concerned student should do the thesis examination again.

Students who have passed the thesis, and have made improvements with the approval of the supervising committee, can duplicate his/her the thesis manuscript into specific numbers (for a commission supervising, Master's program organizer, the reading room and library department of UB and other parties that needed). Thesis script must be approved and signed by the supervising committee and the head of faculty.

2) Graduation Requirements

Students is declared to have graduated from the Master's education programs, Faculty of Administrative Science, University of

Brawijaya, if he/she has completed at least 39 credits (including thesis) with GPA> -2.75 and there is no D except for double degree, 36 credits for public administration, 40 credits for applied Business, and 42 credits for the system development of management information.

3) Predicate of Graduation

Judicium is implemented after a student can complete the entire academic and administrative requirements.

Student who is declared to be graduate if he/she receives a predicate of graduation that stated as follows:

- 1. graduated with cum laude predicate: if GPA> 3.75 to 4.0, with no C, the maximum period of study 4 (four) semesters and thesis exam scores = A, he/she has published scientific papers in accredited national journals (according to the decree of Rector of University of Brawijaya 225/PER/2010 number)
- 2. Graduated with very satisfying predicate
 - a. GPA> 3.75 to 4,0 but do not meet other requirements in item (1)
 - b. GPA >- 3.50 to 3.75
- 3. Graduated with satisfying predicate: GPA = 2.75 3.49.
- 4) Final Assignment Supervisor for Master's Program

To create a final assignment, a student is guided by a supervisor.

- 1. The requirements of the supervisor and examiners. Lecturer who is eligible to guide and examine the final assignment is a lecture with the title of Doctor (S-3). Supervisors and examiners who are outside the provisions are determined by the head of the faculty.
- The determination of the supervising personnel.
 Dean assigns a supervisor upon the recommendation of the head of department. Adjunct lecture / guest lecturers can be proposed to become a supervisor.

- 3. Duties and obligations of a supervisor Duties and obligations of supervisor are:
 - a) Guiding the planning, implementation of research, writing journal articles and theses proposal
 - b) Providing an assessment of the research proposal (research proposal exam), the implementation of the research, research finding seminars, writing and thesis examination.
 - c) Attending a research proposal exam, research finding seminar and students supervised thesis examination.

3. Final Assignment Examination of Doctoral Degree

1) A qualifying examination

A qualifying exam is an examination that held orally to assess students' academic abilities. Assessment components of the qualifying examination are:

- Mastering research methodology in the field of administrative sciences
- 2. Mastering materials of administrative science both theoretical and applied science
- 3. Reasoning skills including the ability to organize abstraction
- 4. Reasoning skill to systematize and formulating the ideas.

Qualifying examination held anytime, it is adjusted to readiness of students and examiners.

Students are entitled and obliged to follow a qualifying examination at a certain period, is essentially a student who meets the academic and administrative requirements that stated as follows.

- 1. Enrolled as a doctoral student in that semester
- 2. Taking all the required courses with a minimum GPA of 3.00 for the 12 best credits, and without D.

Qualifying examination is conducted orally. The qualifying examination time is arranged by the head of the department. Student is declared passed if he/she obtains an average grade at

least B. if he/she does not pass the qualifying exam, students are given the opportunity to repeat the qualifying exam.

The repetition of qualifying examination held at least one month after the first qualifying exam. Qualifying exam committees are same like the previous qualifying exam committee. If the student does not pass the retest, the students are given the opportunity once again to follow the next qualifying examination period. If he/she still did not pass the re-examination, the concerned student considered drop out.

Students who have passed the qualifying examination are obliged to immediately propose the promoter team candidate in accordance with the applicable procedures. Furthermore, the students quickly prepare his/her dissertation research proposal together with his/her team promoters. Dissertation research proposal that has been approved by a team of promoters can be submitted to the head of the department (KPS) to be authenticated.

Doctoral candidate (promovendus) is doctoral education program participants who have passed the qualifying examination and dissertation research proposal that was approved by the committee of dissertation research proposal assessment.

2) Dissertation

- Dissertation is a deep and thorough research finding academic writing which are carried out independently and contains a new contribution to the development of science and / or technology that implement by the doctoral candidate under the supervision of the supervisor
- 2. Dissertation is the final project that must be completed by each student in the doctoral program in university of Brawijaya.

Basically dissertation can be assessed by:

a. Originality and contribution to the field of science and administration or application value

- b. Recent methodologies and research approaches, depth, reasoning and theory mastery
- c. Systematic thinking and accuracy of problem formulation, discussions of research results, and conclusions.

The weight of the dissertation is 28 credits, consisting of academic activities as follows:

- a. Special assignments team of promoters
- b. Academic seminars
- c. Writing scientific journal articles for publication
- d. Preparation of the dissertation, which consists of the activities
 - Preparation of a dissertation research proposal
 - Test the feasibility of the proposed dissertation research
 - Implementation of research for the dissertation
 - Seminar results (scientific journal article format)
 - The final dissertation examination.

3) Preparation of Dissertation Research Proposal

Dissertation research proposal is a student paper that contains the plan as final project research activities in the study in order to follow the doctorate program. Written research proposal writing in accordance with the applicable guidelines, which contains:

- (a) introduction, which contains background of the research, certain phenomena that need to be observed, the framework and the formulation of the problems posed, the intent and purpose of research and hypotheses (if any);
- (b) Review of related literature, which contains the results of the analysis (review) literature (derived from the journals, a collection of research articles, research progress reports from agencies) issues relevant to the proposed research;
- (c) research methods, which contains the methods used by researchers to address the problem, the determination of example, variables used and operational constraints, how to measure it, the methods and techniques of data analysis, analysis tools is also presented information about the place and time of the research and information another relevant to the conduct of the study;

(d) Bibliography, which contains a list of scientific papers used in preparing the research proposal. Alphabetical writing of bibliographies as exemplified in the procedure of writing literature in the dissertation writing guidelines for the Doctoral Program.

Research proposals can be proposed by students who have been through compulsory courses, with a GPA> - 3.00, do not have a D, and have passed the qualifying examination.

Research proposals that have been consulted and approved by a team of promoters can be immediately put into the proposed dissertation research eligibility test.

- 4) Eligibility of Dissertation Research Proposal
 Eligibility of dissertation research proposal is a test conducted by the
 doctoral program in administrative sciences to evaluate the dissertation
 research proposal submitted by the students and has been approved by a
 team of promoters.
- 5) Procedures for the Submission of Research Proposal Dissertation Exam Chairman of the supervising commission and his/her members propose the board of examiner and test execution time of the research proposal to the head of the doctoral program. Based on the proposal, the head of the doctoral program establishes three educators (based on objective considerations, students can add one examiner qualified academic) as additional testing beyond the promoter team. Head of PDIA decision of the examination team should not always be the same as that proposed by the promoter team.

Research proposal dissertation exam team is led by the chief promoter; if the chief promoter is absent for any reason, the head of PDIA can assign one member to lead the test. Examination can be implemented if attended by at least two examiners beside the team promoter and at least person from the team promoters. Examination cannot be implemented outside the examination forum.

Dissertation research proposal examination is conducted during +-120 minutes with the test material is research proposal script. Components are assessed include: research background, research problem, the concept to answer the research problem, research methods, literature analysis and comprehensive abilities of students in presenting and maintaining the content of a research proposal.

The final result of dissertation research proposal is determined by the deliberation in accordance with the score given by the assessors proposed dissertation research committee (team of examiner) and published directly to the concerned students.

The grade limit to pass this exam is minimum B. if less than the grade stated, the student is required to retake the dissertation research proposal exam within 1-2 months after the first exam. If the student does not pass the re-examination again in the promoter gave a special task team to improve the research proposal, the student is given a further opportunity to test the proposed dissertation research on next semester.

Students who have passed the research proposal dissertation is required to immediately repair the research proposal in accordance with the suggestions of the committee appraiser dissertation research proposal in consultation with the supervising commission. Dissertation research proposal that has been approved by team of promoters and assessment is than approved by the head of the doctoral program as a dissertation research proposal. Furthermore, the concerned student can do research.

6) The implementation of the Research

The implementation of the research is the implementations of the activity plan that drawn up in dissertation research proposals that have passed and endorsed by the head of doctoral program.

Research can be conducted in the area / region which is selected in accordance with the approval of the promoter team. Before conducting

the research, the student must complete all applicable academic and administrative requirements.

The implementation of research shall be supervised by the promoter or team representative. Students are required to use the LOG-BOOK to document the process / research activities as well as a means of communication with the team of promoters.

Students, who have completed the research, immediately prepare a journal article (for the research seminar materials) and the dissertation script.

7) Seminar of Result

Dissertation seminar is an academic activity that must be carried out by doctoral student program, who has completed the field research.

Students who will conduct a seminar of the results, consulting with the promoter about the seminar dissertation schedule and other matters related to the seminar. Furthermore, the promoter team proposes examiner lecture and seminar schedule to be process further. Examiner assigned by the head of department should not be the same as that proposed by the team of promoters. In the results seminar, it shall be attended by the external examiner. External examiner determined by the Head of department after getting advice / input from a team of promoters.

The results seminar was led by the head of the promoter or the representative teams. The result seminar must be followed by at least ten (10) students. Seminar materials in the form of script articles for publication journal must be approved by a team of promoters and delivered two (2) weeks prior to the seminar to the team of examiners.

Students who had a seminar results and his/her dissertation script is approved by promoter team, can immediately request a dissertation examination.

8) The writing of Journal Article and Dissertation

- One of the requirements that must be met by a student to be able to graduate are the student has published the whole or part of the material of his/her dissertation substance in international scientific journals
- 2) The number of scientific articles to be published as referred in point a is 1 (one) is an article published in international journals recognized by the ministry of education and culture
- 3) For students who managed to publish some or all of the material / substance dissertation into two (2) international scientific journals recognized by the ministry of education and culture, the dissertation has been approved by a team of promoters do not need to be directly tested and passed with an A grade.

9) Dissertation Examination

Dissertation Examination is one of the academic activities of doctoral students to assess the dissertation submitted by the student and approved by a team of promoters. The Chairman of PDIA establishes the board of dissertation examiners, the board of examiners at the final examination is just the same with the board of examiners in dissertation seminar results.

This dissertation examination is led by the dean /vice dean of academic affairs in the case of dean/vice dean of academic affairs is absent, the head of PDIA who led the exam. In certain cases, the promoter can act as head of examination. Examination can only be held if attended by at least 7 testers, in which guest examiner and team leader of the promoter must be present. Examination cannot be made outside the test forum. Dissertation examination conducted for + - 180 minutes. Dissertation examination components include:

- (1) 30% contribution of science and technology research
- (2) 30% mastery of research methods
- (3) 25% Ability to maintain scientific work promovendus
- (4) 15% dissertation writing

The end result of this dissertation exam is determined by deliberation in accordance with the score given by all members of the dissertation board

of examiners and published directly to the concerned students. Dissertation grade includes the following components:

- (a) The dissertation research proposal
- (b) The research implementation
- (c) Research results seminar
- (d) Dissertation examination

The limit of "passing grade" in this test dissertation is minimum B, if less than this grade, the student must be retake and given the opportunity to repeat 1 (one) test replications dissertation. If the student does not pass again, the promoters give the team a special assignment to the student to improve his/her dissertation script. Within a maximum period of one semester if the student's academic achievement does not show real progress, the concerned student stated as "failed student".

10) Predicate of Graduation

Doctoral degrees awarded the doctoral candidates (promovendus/promovenda) who passed the final exam and the dissertation has met the administrative requirements. Doctoral graduation predicates criteria are stated as follows:

No	Component of Assessment	Credit	Score/GPA
1	Lecture	22	(IPx100)
2	Dissertation	28	
3	15% Proposal	4.2	In Numberx100
4	25% Research Implementation	7	In Numberx100
5	25% Seminar of Result	7	In Numberx100
6	Dissertation Examination	9.8	In Numberx100

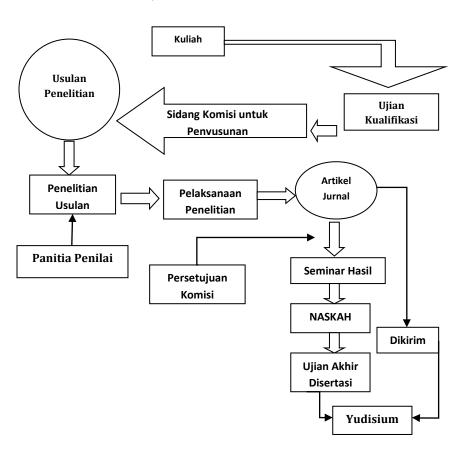

- 1. Graduated with honors (cum laude)
 - a) GPA> 3.75, with no C
 - b) The maximum period of study is seven (7) semesters
 - c) The value of the final exam dissertation is AA.
 - d) Publishing the scientific papers (some or whole of the research dissertation) in accredited scientific journals in accordance with the Rector's Decree dated August 2, 2010 No.225/PER/2010.
- 2. Graduated with honors if:
 - a. Achieve GPA> 3.75 but otherwise unsatisfactory in point (1)
 - b. Graduated with GPA => 3.50 to 3.75
- 3. Graduated with honors satisfactory, if having GPA = 3.00 to 3.50 Predicate completion delivered in judicium forum.

11) Committee

Some committees are involved in the educational process of the doctoral program are:

- (1) Qualification exam committee is a group of educators who were given the task of carrying out assessments in the qualifying examination. The committee consists of educators in relevant field of science and has academic position of professors, or at least associate professor of the doctoral degree.
- (2) Dissertation research proposal committee is a group of educators who were given the task of conducting an assessment of research proposal for the dissertation. This committee consists of the promoter and co-promoter, plus at least three educators whose field of science relevant to the proposed dissertation research and academic posts, a great teacher, or at least hold doctoral Associate Professor.
- (3) Dissertation Assessment committee is a group of educators who were given the task of conducting an assessment of the dissertation script that has been approved by the supervising committee. This committee consists of the promoter and co-promoter and at least 6 educators in which his/her fields of science is relevant to the dissertation script and had a professor academic position, or at least

- associate professor who holds a doctorate degree, one of which comes from outside the university Brawijaya / outside Malang and have scientific competence that nationally recognized.
- (4) Final exam dissertation committee is a group of educators who were given the task of carrying out the final exam doctoral candidate. This committee consists of 9 dissertation committee assessors (at least 1 of the examiner come from outside University of Brawijaya who meet academic requirements and has a national reputation)
- (5) Every committee personnel that stated above are established by the SK Dean Faculty of Administrative Science.

G. EVALUATION OF STUDENT COMPLETION

Evaluation of Student Completion is represented by their grade point average (GPA), which was written by numbers. Evaluation of student completion is carried out at least every semester, first year, second year, third year, fourth year and end of the study.

1. Sarjana's program

a. Evaluation of success in the end of semester

Evaluation of the success is conducted at the end of the semester end of every semester, including courses that taken by the student in that semester. The results of this evaluation are primarily used to determine the burden of studies that may be taken in the next semester based on the following provisions:

IP Semester yang diperoleh	Beban studi dalam semester	
≥ 3,00	22 – 24 SKS	
2,50 – 2,99	19 – 21	
2,00 – 2, 49	16 – 18 SKS	
1,50 – 1,99	12 – 15 SKS	
< 1,50	< 12 SKS	

b. Evaluation of success in the first year of study

At the end of the first year, students who enrolled in a *Sarjana's* program at University of Brawijaya, conducted an evaluation to determine whether the student may continue to study or not. Students were allowed to proceed if it meets the following requirements:

- 1) Collecting at least 24 credits
- 2) Achieving GPA at least 2.00 calculated from 24 credits from courses that have the best grade.
- c. Evaluation of success in the second year of study
 Students are still allowed to continue their studies after the second
 year, if it meets the following requirements:
 - 1) Collecting at least 48 credits
 - 2) Achieving GPA at least 2.00 calculated from the value of 48 credits from the courses that have the best grade.

- d. Evaluation of success in the third year of study
 - Students are still allowed to continue their studies after three years, if it meets the following requirements:
 - Collecting at least 72 credits
 - 2) Achieving GPA at least 2.00 calculated from 72 credits from the courses that have the best grade.
- e. Evaluation of success in the fourth year study

Students are still allowed to continue their studies after the fourth year, if it meets the following requirements:

- 1) Collecting at least 96 credits
- 2) Achieving GPA at least 2.00 calculated from 96 credits from the courses that have the best grade.
- f. Evaluation of success at the end of Sarjana's study program

The numbers of credits that must be collected by a student to complete the undergraduate program of study reach 147 credits including thesis.

The minimum number of credits is determined by each department within the limits of the distribution. Students who have accumulated at least the minimum number of credits stated above have completed *Sarjana's* degree if they meet the following conditions:

- 1) Grade point average (GPA) is at least 2.00
- 2) The grade of D/D + does not exceed 10% of the total credit load, and the main subject competencies are not allowed to acquire D/D + $\frac{1}{2}$
- 3) There is no E
- 4) Passing the Sarjana's examination

If the achievement index is less than 2.00 the concerned student shall fix the grade of the subjects and not exceeded the limit the study period. Improvements must be made in the next semester when the fixed courses are offered. Every course that repaired, the highest grade is used for evaluation.

2. Magister Program

Master's programs (for participants who have similar *Sarjana's* education) designed within a period of four semesters (two years), can be reached in less than four semesters and a maximum of 8 semesters (4 years).

For students who have not been able to complete the study within four years without justifiable reasons, the student is determined to have failed to follow the Master's program.

The time of study include academic leave (terminal), and every student has the right to do academic leave as much as 2 (two) semesters during his/her studies.

Academic leave can be taken by students on the conditions (1) medical disorders/sick in a long time, so it is not possible to implement the learning process, (2) maternity leave, (3) live in a place that does not allow to implement the learning process, (4) other reasons that can be accepted by the head of the organizers of the Master's program.

Evaluation of success

- a) The student has not been able to achieve GPA = 2.75 at the end of the first semester for the best eight credits will be given a warning, so they will study harder to improve their performance in the next semester.
- b) Students at the end of the second semester who has not been able to achieve a GPA of 2.75 for the best 16 credits, therefore the student has failed and not allowed to continue his/her studies.
- c) Subjects matter that obtained D and C can be repeated. Repetition lectures for a particular course can only be done once and the results of the test subjects whose highest value is B
- d) For a student who has taken at least 24 credits with a minimum GPA of 2.75 with no D, the concerned students can formally propose a thesis proposal
- e) Thesis research proposal must be approved by the supervising committee and maintained and passed in front of research proposal assessment team (i.e. commission supervising examiner plus two examiners that has been established by organizing leaders based on the proposed head of the Master's department).

f) Students who have passed research proposal examination and have been carried out all mistakes and approved by the supervising commission to immediately can carry out the thesis research

3. Doctoral Degree

Evaluation of success

- a) The students who at the end of the first semester has not been able to achieve a minimum GPA of 3.0 for the 12 best credits will be given a warning, in order to do better to improve their academic achievement in the next semester.
- b) Subjects matter that received D shall be repeated while subject matter that received C can be repeated and implemented on a scheduled semester. Subjects matter that were repeated only be done once and the highest value of it is B+.

H. LENGTH OF STUDY

1. Sarjana's degree

Sarjana's program must be completed in no more than seven years, starting from when the student enrolled as a student. If at the limit of specified study period, the student has not been able to complete his/her Sarjana's degree, then the concerned student not being able to continue his/her studies.

The seven-year study period does not include academic leave/terminal, but for students who did not re-enroll without permission of the Rector might contribute to the study period.

For students who go beyond the four-year study period will apply the provisions of progressive SPP.

2. Master's Degree

C. MANNERS AND RESPONSIBILITY

In accordance with Indonesia's Government Regulation number 60 of 1999, students who are registered to study at a certain university, along with the lecturers and staffs as parts of scientific society, should hold dialogues during the teaching and learning process.

The academic policy appreciates others' works, provides equal opportunities, keeps each other's confidentiality, upholds objectivity, respects to others, performs well manners, and keeps the environment clean, safe, and well. The Faculty's academic society should understand and apply these values in all academic aspects, such as in study, research, publication, and during holding the *sarjana*'s degree. Sanctions will apply to any violances to these general policy.

In order to make it run well, the students, in particular, should pay attention and comply with the following values, norms, and ethics that can control their attitudes and behaviors:

- 1. Manners in the faculty's environment are based on principles of kinship and by upholding harmony and equality based on Pancasila.
- 2. The Academic Society of Faculty of Administrative Science, University of Brawijaya, has a responsibility to maintain the well reputation of the alma

mater and to understand that campus is an academic society which will keep developing, thus a conducive atmosphere must be altogether made in order to hold a teaching and learning process.

3. Intellectual Property

Intellectual property is one's work that costs thoughts, feelings, time, energy, and money. Therefore, members of the academic society must appreciate one's intellectual property by avoiding plagiarism, that is, taking somebody else's work without permission or mentioning the original source. All the diploma, *sarjana*'s, master's, and doctoral degree programs will impose strict sanctions concerning this violation on academic ethics. The faculty's senate is to determine the sanctions.

4. Equality

Despite ability and strong willingness, opportunities are the key to win achievements. Therefore, any member of the academic society should be given an equal chance to win achievements above all differences in race, sex, religion, research discipline, and so on.

5. Privacy

Every individual possesses information concerning him/herself which is confidential. Personal identity of students of master's and doctoral degree programs are secured, including home address, phone number, cell phone number, academic achievements, family, and so on. Access to the information will only be given under the student's permission, except as reports to the faculty's convenors.

6. Sense of Belonging

Possessing a sense of belonging with each other reflects one's emotional capacity. All members of the academic society are to have this sense and display it in real actions, such as donating books or being involved in a broader-scope social activity. Other forms of help may include health and morale assistance.

7. Ombuds

All members of the academic society have the right to be protected from things that may make them to experience certain losses. They may file a complaint concerning unfair policies or decisions.

8. Smoking Regulation

To respect everyone in the academic society is an important value to hold. Smoking may reflect disrespect to others as it is proven to cause many diseases. Therefore, it is forbidden to smoke cigarettes in the classroom, library, the office building, particularly when an air conditioner is installed in the room, and while taking examinations and working with a computer.

9. Courtesy, Hygiene, Fineness, and Security

All members of the academic society is obliged to uphold courtesy, hygiene, fineness, and security during their activities in the campus. Therefore, wearing t-shirts, overly tight, exposing, or short clothing is forbidden. Sandals are also not appropriate. Any actions of vandalism, such as breaking tables or chairs or drawing on the wall. They must throw trash into the provided wastebaskets. Also, they are not allowed to make noise that potentially disturbs others, damage parks and plants, and any other activities that can cause threats to the campus's security.

10. Utilization of Facilities

All facilities in the campus belong to all members of the academic society. Therefore, responsibility to keep the facilities must be taken into account. Any damage to certain facilities will be given to the member who is known to cause the damage.

 - d. Publishing scientific and popularjournals.

f. CorruptionStudy Center

(1) Corruption study centerassigned to conduct educational activities, research, socialization and internalization ofanti-

corruption values in order to create a culture of anticorruption

- (2) corruption assessment center has the task:
 - a. Organizing studies and research related to the phenomenon of corruption
 - b. Designing and updating course syllabus teaching system and anti-corruption culture
 - c. Socializing program delivery and internalization of anticorruption culture, and
 - d. Empowerment of the community in the prevention and fight against corruption
- g. Study Center and Development of Management Information Systems (PKPMSI)
 - (1) Study center and development of management information systems (PKPMSI) assigned to conduct a scientific study on management information systems to improve organizational performance
 - (2) PKPMSI has several functions:
 - a. Reviewing management information systems to encourage the creation of organizational innovation
 - b. Developing concepts and methods in the management information system of innovative and competitive
 - c. Reviewingand providing consultancy services on the design and implementation of new information technology, and
 - d. Educating and training the management information system.
- h. Conflict and Policy Studies Center
 - (1) the center of the conflict and policy assessment (research center for conflict and policy), hereinafter referred to RCCP has the tasks to implement education and training activities (training) as well as review both consultative and operative

- for various aspects of policies, conflict, and conflict resolution through cooperation with various necessaries parties.
- (2) in order to carry out the duties as prescribed in paragraph (1), RCCP has the tasks:
 - a. implementing cooperation with various parties for the implementation of education and training;
 - b. organizing scientific cooperation for policy studies, policy implementation and the impact of the policy, and
 - c. implementing other cooperation with various parties with principles that agreed and independent.
- i. Study Center, Education and Training for Apparatus Empowerment
- j. Business Development Study Center (center of business development studies)
 - (1) business development assessment center (center of business development studies) in whichis called as CBDS has the task toimplement activities related to business development, including research and publications, education and training, consulting and creative business through cooperation with various stakeholders in the business sector as well as public sector
 - (2) Business development study center (center of business development studies) has several functions:
 - a. organizer of research and publication activities who works closely with various parties, both in the form of market research, policy research, and research for the development of science
 - b. organizers cooperation with various parties for the implementation of education and training business development, among others in the field of finance, human resources, tourism and international business etc.

- c. implementation of consulting for requires business and public sector
- d. Implementation of creative business activities in the form of visual communication design and business modeling
- e. provider certification activities related to business development
- f. Other cooperation organizers with various parties with the agreed principles.

C. Technical Services Unit

- a. Language Unit
 - (1) Language unit has the task to organize language training services of Indonesian and foreign language
 - (2) Language has several functions:
 - a. Training service of Indonesian and foreign languages
 - b. Implementing language competency test for students and lectures, and
 - c. consulting services andtranslation of Indonesian and foreign language
- b. Scientific Reference Service unit / Learning Resource Center
 - (1) Scientific Reference Service unit has the task to provide scientific reference library services for lecture and students;
 - (2) scientific references service unit has several functions:
 - a. provision and management of library materials;
 - b. utilization of library services;
 - c. maintenance and preservation of library materials, and
 - d. coordination, evaluation, and library collections.
- c. (1) Public Relations unit has information services task related to theidentity and activities of the faculty
 - (2) Public Relations unit has several functions:
 - a. preparation of action plans, targets, and an annual budget of the Public Relations unit;

- identification and description of external stakeholders as a basis for the selection and design of communication media:
- c. imaging faculty through faculty socialization programs and activities to community stakeholders, and
- d. evaluating and monitoring the implementation of activities.

D. Scholarship

Scholarships are awarded to students of the Faculty of Administrative Science that aims to:

The scholarships are offered, from the Government (State and non-tax revenues) and other sources, they are:

- 1. student learningsupport (BBM) 15. PGN
- student rear mingsupport (BBM)
 improvement of academic
 State Savings Bank
- achievement (PPA)
 3. BMU 17. Pertamina
- 4. BKM 18. Indosat
- 5. BidikMisi 19. Daihatsu
- 6. I-MHERE 20. BCA Finance
- 7. Competitive Scholarship8. Supersemar21. Eka Tjipta22. pawnshop
- 9. Djarum Foundation 23. MandiriBank
- 10. IndonesiaBank 24. TNI Police
- 11. Bank Rakyat Indonesia 25 SOE Care Education

- 12. Toyota and Astra
- 13. TASPEN
- 14. Indonesia State Bank '46
- 26. Foundation Charity Services
- 27. Kaltim Prima Coal Co.
- 28. Marga Jaya, etc.

Who can apply a scholarship are students of University of Brawijaya:

- 1. S1 program (the lowest is a student who sit in asecond semester and the highest is a student who sit on the eight VIII)
- Diploma III program / vocational education (the lowest is a student in the IIsemester and the highest sit inVI semester), and
- 3. An active status in the even semester of 2013/2014

APPENDICES

1. DRAFTING TEAM OF ACADEMIC REGULATIONS FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA 2013/2014 ACADEMIC YEAR

Responsible Person : Prof. Dr. Bambang Supriyono, MS.

Chair :

Vice Chairs : 1. Dr. Zainul Arifin, MS.

2. Drs. Heru Susilo, M.A.

Secretary : 1. Drs. Lukisan Edi Kuncoro

2. Jaedi, S.P.

Members : 1. Dr. M.R. Khairul Muluk, S.Sos., M.Si

2. Dr. Srikandi Kumadji, MS.

3. Prof. Dr. Soesilo Zauhar, MS

4. Prof. Dr. Suhadak, M.Ec.

5. Andi Fefta Wijaya, MDA., Ph.D

6. Dr. Kertahadi, M.Com

7. Drs. Minto Hadi, M.Si.

8. Devi Farah Azizah, S.Sos., M.AB.

9. Dr. Hermawan, S.IP., M.Si

10. Dr. Siti Ragil Handayani, M.Si.

11. Dr. Mochammad Al Musadieq, MBA

12. Dr. Luqman Hakim, M.Sc.

13. Irwan Noor, M.A.

14. Dr. Djamhur Hamid, Dipl.Bus, M

2. CURRICULUM DEVELOPER SARJANA'S PROGRAM IN PUBLIC ADMINISTRATION FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA 2007

Patron : Prof. Dr. Suhadak, M.Ec.

Steering Committee : 1. Dr. Endang Siti Astuti, M.Si

2. Dr. Zainul Arifin, MS

3. Dr. M.R. Khoirul Muluk, S.Sos., M.Si

Responsible Person : 1. Prof. Drs. Solichin Abdul Wahab, M.A., Ph.D

2. Dr. Imam Hanafi, M.Si

Chair : Prof. Dr. M. Irfan Islamy, MPA

Secretary : Dr. Mardiyono, MPA

Members : 1. Prof. Dr. Sjamsiar Sjamsuddin

2. Prof. Dr. Soesilo Zauhar, MS

3. Drs. Andi Fefta Wijaya, MDA., Ph.D

Technical Assistant : 1. Wima Yudho Prasetyo, S.Sos., MAP

2. Firda Hidayati, S.Sos., MPA

3. CURRICULUM DEVELOPER SARJANA'S PROGRAM IN BUSINESS ADMINISTRATION FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA 2007

Patron : Prof. Dr. Suhadak, M.Ec.

Steering Committee : 1. Dr. Endang Siti Astuti, M.Si

2. Dr. Zainul Arifin, MS

3. Dr. M.R. Khoirul Muluk, S.Sos., M.Si

Responsible Person : 1. Dr. Kusdi Rahardjo, DEA

2. Drs. R. Rustam Hidayat, M.Si

Chair : Prof. Drs. Achmad Fauzi Dh., M.A.

Secretary : Drs. Heru Susilo, M.A.

Members : 1. Dr. Suharyono, M.A.

2. Drs. Kertahadi, M.Com.

3. Drs. M. Al Musadieq, MBA

4. Drs. Wilopo, MAB

Technical Assistant : 1. Nila Firdausi Nuzula, S.Sos., M.Si.

2. M. Faisal Riza, S.Sos., M.Si

4. CURRICULUM DEVELOPER INTERNATIONAL BUSINESS PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Sumartono, MS.

Steering Committee : Prof. Dr. Bambang Supriyono, MS

Chair : Dr. Kusdi Rahardjo, DEA

Vice Chair : Dr. Hamidah Nayati Utami, MS.

Secretary : Drs. R. Rustam Hidayat, M.Si

Members : 1. Dr. Kertahadi, M.Com.

2. Dr. M. Al Musadieq, MBA

3. Gunawan Eko N, S.Sos., M.Si.

4. M. Faisal Riza, S.Sos., M.Si

5. Cacik Rut Damayanti, S.Sos., M.Prof.Acc

6. Saparilla Worokinarsih, S.Sos., M.Si

Technical Assistant : Agus Suyanto, S.AP.

5. CURRICULUM DEVELOPER TAX SCIENCE PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Bambang Supriyono, MS

Steering Committee : Prof. Dr. Sumartono, MS

Chair : Dr. Kusdi Rahardjo, DEA

Vice Chair : Dr. Siti Ragil Handayani, MS.

Secretary : Drs. R. Rustam Hidayat, M.Si

Members : 1. Devi Farah Azizah, S.Sos., M.AB

2. Dra. Zahroh Z.A., M.Si.

3. Drs. Nengah Sudjana, M.Si.

4. Drs. Dwi Atmanto, M.Si.

Technical Assistant : Agus Suyanto, S.AP.

6. CURRICULUM DEVELOPER GOVERNMENT ADMINISTRATION PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Sumartono, MS

Steering Committee : Prof. Dr. Bambang Supriyono, MS

Chair : Dr. M.R. Khoirul Muluk, S.Sos., M.Si.

Vice Chair : Dr. Luqman Hakim, M.Sc.

Secretary : Muhammad Nuh, SIP., M.Si

Vice Secretary : Ainul Hayat, S.Pd., M.Si.

Members : 1. Prof. Dr. Syamsiar Indradi

2. Dr. M. Saleh Soeaidy, M.A.

3. Drs. Suwondo, M.S.

4. Drs. Irwan Noor, M.A.

5. Drs. ABB Fuad, M.S.

6. Dra. Farida Nurani, M.Si.

7. Ike Wanusmawatie, S.Sos., M.AP

Technical Assistant : Uus Rahmansaleh, A.Md.

7. CURRICULUM DEVELOPER DEVELOPMENT PLANNING PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Sumartono, MS

Steering Committee : Prof. Dr. Bambang Supriyono, MS

Chair : Dr. M.R. Khoirul Muluk, S.Sos., M.Si.

Vice Chair : Dr. Hermawan, S.IP., M.Si.
Secretary : Muhammad Nuh, SIP., M.Si

Vice Secretary : Fadillah Putra, S.Sos., M.Si., M.Paff.cc

Members : 1. Prof. Z.A. Achmady, MPA

Prof. Dr. Agus Suryono, M.S.
 Prof. Dr. Abdul Hakim, M.Si.

4. Dr. M. Makmur, M.S.

5. Drs. Heru Ribawanto, M.S.

6. Drs. Abdullah Said, M.S.

7. Drs. Siswidiyanto, M.S.

Technical Assistant : Uus Rahmansaleh, A.Md.

8. CURRICULUM DEVELOPER TAX SCIENCE PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Sumartono, MS

Steering Committee : Prof. Dr. Bambang Supriyono, MS

Chair : Dr. M.R. Khoirul Muluk, S.Sos., M.Si.

Vice Chair : Dr. Irwan Noor, M.A.

Secretary : Nike Lastiti V.A., S.AP., M.AP

Members : 1. Dr. Choirul Saleh, M.Si.

2. Dra. Welmin S.A., M.Lib.

3. H. Muslech, Dipl.Lib., M.Si.

4. Erlita Cahyasari, S.AP., M.AP

5. Dra. Rosadah Agustin S., M.AB

Technical Assistant : Uus Rahmansaleh, A.Md.

9. CURRICULUM DEVELOPER HOSPITALITY AND TOURISM PROGRAM FACULTY OF ADMINISTRATIVE SCIENCE – UNIVERSITY OF BRAWIJAYA

Responsible Person : Prof. Dr. Sumartono, MS

Steering Committee : Prof. Dr. Bambang Supriyono, MS

Chair : Dr. Kusdi Rahardho., DEA.
