Students are able to analyze the effect of cultural differences in policy contexts (KK3) 5. Students are able to apply adapted public policy scenario that has been explained in class and/or of reading materials (KK7) 				
3	Description With political polarization fastly becoming the defining issue of our time, there is a pressing need to develop a more precise understanding of the actions of government and the intentions that determine such actions. In this class, we will develop an in-depth understanding of what public policy is and why we sometimes justify government involvement in solving social problems. We will learn how to identify the characteristics of effective and ineffective policies by examining the conditions under which government actions may stifle intergenerational mobility, equal opportunity, and better social and economic outcomes. We will also examine the environments in which poorly designed public policies may create unexpected consequences and negative outcomes, such as exclusion or political capture.
