## WHAT DID THEY SAY ABOUT FAS UB?

FAS UB has its own place in my heart. As a person who came from outside of East Java, every time I go to Malang and go to FAS, I will immediately remember my college days. Fighting over bakso in the pavilion that opens at 11 pm, taking the stairs even though the class is on the 5th floor, forgetting where to park the motorbike, the super nice public academic helped me with many things until I finally graduated from here. I met a lot of friends and lecturers who were very friendly, I'm happy to have been part of FAS UB, have stories, and have a lot of memories here.

Message for FAS UB, stay a good place for everyone and for friends who are still there, use your time and make as many stories as possible there 🌸

Kintan Regita | Alumni of Public Administration 2023

Impression about FAS is how the lecturer is very FRIENDLY, moreover, the lecturer also involves students in their projects both in the field of research or committee. And when we contribute, they can also work with us. The campus environment which in my opinion is quite okay compared to other faculties in terms of modern buildings and facilities. The message is for the administration, I think it can be improved for the process to be friendly and informative for the academic staff. So that it reflects FIA with good administration

**Filzah Farah Egalita | Alumni of Taxation 2023**

FAS is very comfortable and the environment is lovely. In terms of academics, I think FAS opens very broad learning opportunities for students to develop their knowledge from various sides, especially through the involvement of students in various research and also some of the faculty's big events. The message is that hopefully more and more students will be allowed to learn a lot through involvement in various projects and the most important thing is the canteen, hopefully, someone will fill it quickly.

**Sekar Aqila Salsabilla | Public Administration Master's Student 2023**

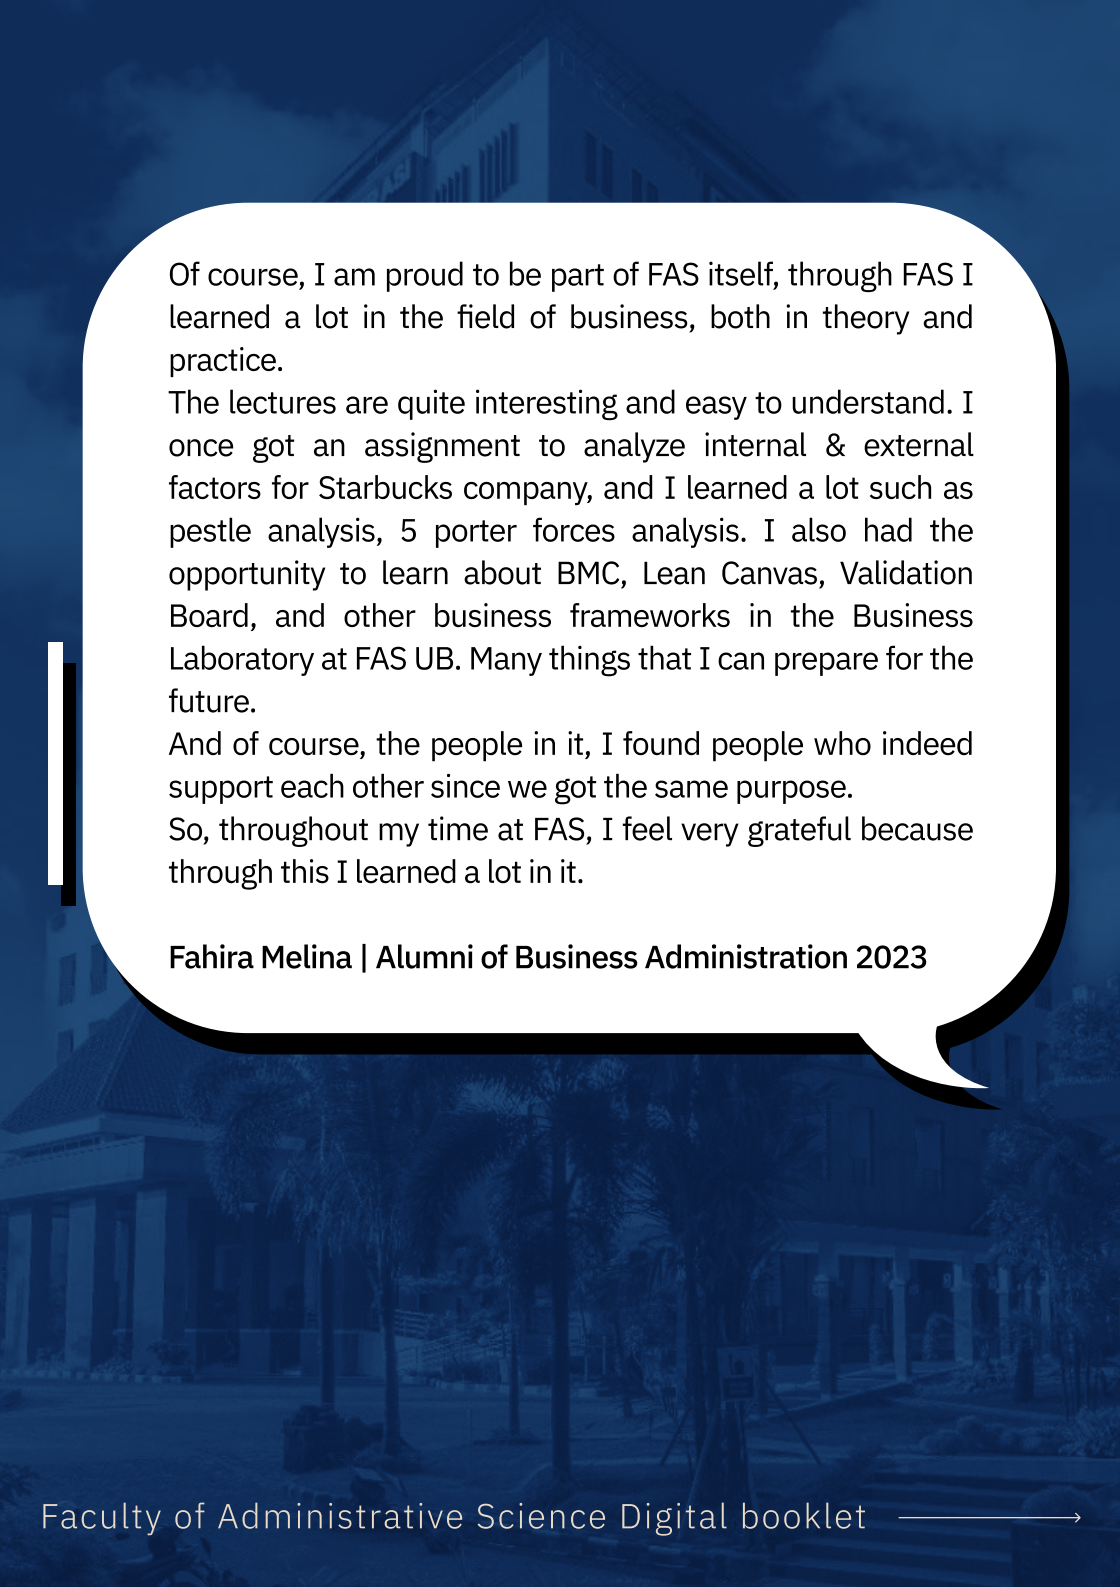

For FAS, which is a Faculty of Administrative Science, their administrative management is still lacking, whether the administrative guidelines, policy, or miscommunication issues. But the expert staff is very helpful in the administrative process. My advice is hopefully they could improve the policy, so it could be clearer.

The facilities and infrastructure to support class activities are quite good, maybe in some classes there is damaged infrastructure. The elevator provided is also still lacking to help mobilize quite a lot of FAS students. If I may give a suggestion maybe they could rebuild the elevator that can support student mobilization to class in a punctual manner, or policies regarding who is allowed to use the elevator.

What I like the most about FAS is the KRS system which is not at the same time as other faculties, thus reducing the possibility of a down system.

**Dewa Enta Putri | Undergraduate Tourism Student 2021**

Of course, I am proud to be part of FAS itself, through FAS I learned a lot in the field of business, both in theory and practice.

The lectures are quite interesting and easy to understand. I once got an assignment to analyze internal & external factors for Starbucks company, and I learned a lot such as pestle analysis, 5 porter forces analysis. I also had the opportunity to learn about BMC, Lean Canvas, Validation Board, and other business frameworks in the Business Laboratory at FAS UB. Many things that I can prepare for the future.

And of course, the people in it, I found people who indeed support each other since we got the same purpose.

So, throughout my time at FAS, I feel very grateful because through this I learned a lot in it.

**Fahira Melina | Alumni of Business Administration 2023**

## **FUN FACTS ABOUT FAS UB**

The cafeteria lady is very friendly and lovely!

You can see the Soehat  
Bridge from above

There are two bakso in the pavilion! If  
you want big gorengan, go to the new  
pavilion. But if you want good  
gorengan, broth, and sambal, go to the  
old pavilion.

The 9th floor is really cold like  
in the Northern pole

“Faculty of Artist Science,” they said

The mango and avocado juice in  
the cafeteria is delicious!!
